Laxmi Hantal

DOB- 1st February'17

Attendance- 176 out of 183 days

Report for 2023-24 (First Term)

Introduction

Laxmi is a regular child who possesses a remarkable level of innocence and talent. Occasionally, she arrives late to school as she walks to school. Upon reaching the group, her first act is to sweep the area. Laxmi is very friendly and enjoys being friends with all her classmates. She brushes her teeth at school and takes a bath. Most of the time, she arrives in dirty clothes and is provided with clean ones at school. She also has a preference for eating all the vegetables and consistently finishes her meals.

Circle Time

During circle time, she sits with the poise of a sage and confidently chants all the rhymes. Laxmi remembers all the chants and enjoys singing songs with actions. She quickly grasps new songs, and her voice is loud and clear, leading her to sing confidently in both group and assembly settings.

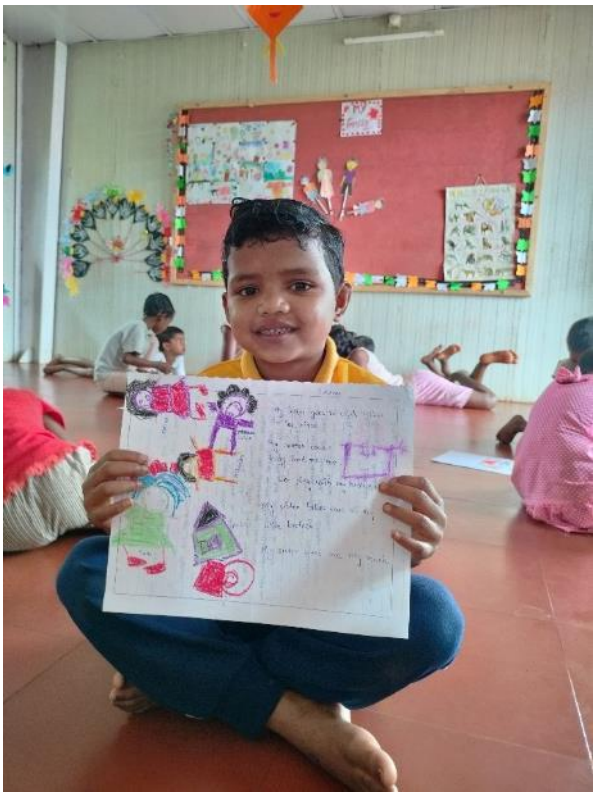
Languages

Hindi

In language class, Laxmi enjoys listening to stories about animals from picture books. She comprehends the entire story and can answer questions related to the story. However, when asked to retell the story, she takes her time. She can create her own creative stories through drawings, using 4 to 5 lines. In the "myself" topic, she created a book about herself and learned to introduce herself in full sentences. In the "body parts" topic, she learned the names of body parts in Hindi and can explain how they are useful. She also created drawings and paintings of her body parts,

describing 3 to 4 lines for each body part. In the "my family" topic, she learned about her family's relationships, created drawings of her family, and provided 5 to 6 lines about her family members.

English



Laxmi is always cheerful and keeps a smile on her face and likes being with her friends. She enjoys singing various rhymes in the circle time. She is interested in singing songs with actions. She is more interested in listening to different stories- mostly with puppets and with picture books. One of the stories she heard was ‘the thirsty crow’ with puppets and a real pot with pebbles and water too. Then she also heard the same story through picture books. She enjoys listening to stories. She drew the same picture and tried narrating this story again which was written on paper by us. She needs to improve her speaking skills in English. She had taken some topics: -

In the topic ‘my body’, she learnt the names of the external body parts and can show the parts of her body.

In the topic on ‘myself’, she learnt how to speak her name in full sentence in English, her age, her favourite colour and things. She drew all these on a paper and didis cut the picture for her and made a book out of it.

In the topic ‘my family’, she learnt the names of her parents, how many members are there in her family, and their occupation. She also learnt a rhyme of my family. She enjoyed learning this rhyme.

Mathematics

Laxmi displays strong mathematical aptitude and concentration throughout the class. She has mastered pre-number concepts by collecting leaves, flowers, and sticks. She understands concepts such as big-small, heavy-light, long-short, fat-thin, and has learned the

names of colors through sorting and matching. She can arrange objects in increasing and decreasing order.

Laxmi establishes a quick rapport with numbers and has started counting with small numbers using different objects. She can now count in a proper sequence and can perform forward and backward counting up to 100 using a "ganitmala." She often leads group counting exercises

and demonstrates keen observation skills when identifying after and before numbers up to 20. Her memory is excellent, and she can perform skip counting by 2 up to 100. Laxmi can recognize and represent numbers up to 100 using a "ganitmala." She can also relate one number to another by breaking numbers down by 10 without using objects. Additionally, she can perform single-digit addition without relying on objects.

Skill work

She appreciates art class because it offers various activities such as paper folding, drawing, and painting. She enjoys drawing flowers and takes care not to dirty the paper while colouring. In paper folding, she sometimes needs teacher's assistance. Her favourite colour is green.

Celebrations

Laxmi thoroughly enjoys drama and possesses a loud and clear voice. She exudes self-confidence while performing, singing songs, and delivering her lines on stage. On July 5th, she participated in a melodrama about body parts, which was created by the students in the group. On August 15th, she performed a dance to the song "Sri Aurobindo Name Anando." On August 30th, she made rakhis with beads and thread and

celebrated Raksha Bandhan at school. On September 7th, she delivered a dance performance to the song "Adharm Madhuram" for Janmashtami. On September 19th, she danced to the song "O My Friend Ganesha" for Ganesh Puja.

Games

Laxmi is an energetic and consistent girl who enjoys running, exercises, and games. She's good at high jump and long jump, but she tires quickly when running at high speeds. However, she always tries her best.
