Deepak Muduli

DOB- 14th June'15

Report for 2023-24 (First Term)

Attendance- 182 out of 183 days

Introduction:

Deepak, an 8-year-old hostel resident, communicates politely but can occasionally be rude. He enjoys playing during his free time, but he needs to work on his classroom behaviour, particularly focusing during class.

English:

Deepak is a brilliant student who remembers lessons and actively participates in discussions. He speaks English fluently, understands English stories, and recreates them in his own words. Deepak is skilled at creating stories and drawings. He has learnt all 26 alphabets, their sounds, and a sound song. Deepak differentiates between big and small letters, reads two and three-letter words, and can write his name in English.

Hindi:

Deepak is a very

intelligent boy who quickly learnt alphabets and their sounds. He grasped them by using cards featuring pictures starting with each letter. He pronounces the alphabets clearly. Deepak enjoys listening to stories and moral tales. His active participation in class depends on his mood; he shows interest when in a good mood but remains quiet when

he's not. He rapidly learnt two poems and two songs for programs. He also attempts to create stories. Deepak creates drawings of trees, body parts, and fingers, quickly memorizing the names of all the body parts. He finds great joy in playing games related to the five senses, particularly the blindfolded game involving vegetable recognition.

Projects:

Deepak is an exceptionally attentive and curious student in the project class. He actively engages with the discussions and shows a strong ability to connect the topics to his daily life, which aids in his retention of information. Since he has not yet acquired the skill of writing, he skilfully expresses his thoughts and understanding through drawings.

Plants: Deepak's enthusiasm for learning about plants is evident. He has a keen interest in understanding the different parts of plants and the various types of plants. He has the ability to distinguish between trees, shrubs, herbs, and climbers. He can recognize plants by touch and smell, which is impressive. He has created drawings of various plant types and has a remarkable grasp of the parts of a tree, including leaves and flowers. Deepak has also learnt about different spices, pulses, and seeds. He can

eloquently explain the importance of plants and how they benefit us. His ability to respond to questions about the topic demonstrates a solid understanding.

Water: Deepak is an active participant in group discussions and responds well to questions in the water topic. He has acquired knowledge about different water sources, forms of water, and the water cycle. His ability to create clear visual representations of water sources and the water cycle is commendable. Deepak has a good grasp of the steps involved in the water cycle and can explain the process effectively. He has also gained insight into the various uses of water and has expressed this through drawings. His knowledge extends to understanding water pollution, its causes and effects, and measures to keep water clean.

Air: While air was a new topic for Deepak, he demonstrated a strong ability to learn about the properties of air through practical experiments. He was actively engaged in experiments that allowed him to comprehend these properties. He has also gained knowledge about the different gases present in the air. Deepak's participation in experiments has solidified his understanding of air. He is well-informed about air pollution, its contributing factors, and methods to maintain clean air. His ability to recall what he has learnt and respond to questions on the topic is impressive.

Body Parts: Deepak displayed a genuine interest in the body parts topic and actively engaged in learning about the human body. He created numerous drawings related to body parts and asked thoughtful questions about the topic. His understanding extends to the functions of internal and external body organs, the five senses, and the names of various teeth. Through visual aids like charts and drawings,

Deepak has effectively retained and related to this knowledge. He demonstrates a solid grasp of the topic by answering questions with confidence.

Deepak's enthusiasm, engagement, and ability to retain and apply knowledge through drawings and visual aids are commendable. His active participation in class discussions and his inquisitive nature indicate a strong aptitude for learning and an eagerness to explore various subjects.

Maths:

Deepak possesses a positive attitude toward mathematics and is highly engaged in the classroom. His active participation includes being among the first to answer questions. His mathematical calculations are generally excellent, although occasional minor mistakes occur. Deepak has started writing in a notebook and demonstrates a strong mental ability to work with larger numbers. He has a good understanding of both carryover addition and borrowing subtraction, particularly with 3-digit numbers. Deepak can write numbers up to 1000, arrange numbers in ascending and descending order, and is currently learning multiplication, recognizing it as repeated addition.

Arts:

Deepak Enjoys participating in all art class activities but often hurries through them. His art includes paper folding, where he crafts items like paper fans and boats. Deepak takes care to fold paper correctly, and in his drawings, he frequently portrays sunsets, making sure to colour them with precision.

Dance:

Deepak enjoys dancing, especially when he's in a good mood, which results in energetic dancing. While he tends to feel shy about dancing alone, he can mimic steps when teachers demonstrate. Zumba dances are his favourite. He faced challenges while learning a dance for Ganesh

Chaturthi, "*Jay Dev Jay Dev*," but overcame them by asking for help when needed. A dance performance for the 15th of August was also successful, and he put in great effort to perform it flawlessly.

Puzzles:

Deepak has a strong passion for puzzle-solving and consistently arrives on time for his classes. He is versatile and willing to work on any type of

puzzle, completing 200-300 piece puzzles. Deepak's respectful and non-choosy approach ensures a peaceful learning environment without disruptions.

Singing and drama:

Deepak has a vivid imagination, loving to create and act in his stories. He sings songs loudly but may need extra time for lyrics if he's especially interested. His favourite song is "What a Wonderful World." He enjoys storytelling and demonstrates a passion for poems by Sri Aurobindo.

Games:

Deepak loves playing football and is good at it. He's strong, healthy, and active while playing games. He finds pleasure in running during sports activities.
