

Amrita Majhi

DOB-18-Jun-2016

Attendance-177 days out of 182 days

Report for 2024-25 (Second term)

INTRODUCTION

Amrita belongs to a nuclear family consisting of seven members. She has come from a faraway village- Lenji Suku, and is studying at Auro-Mira Vidya Mandir. Her parents are farmers, and they earn very little money from whatever they grow in their fields. She has three siblings: Jagdish, Lalita, and a younger brother.

Her eldest brother, Jagdish, is studying in Koraput, and her elder sister, Lalita, is studying in Nandapur. Her younger brother is at home as he is too small to go to school. She has been staying in the hostel from the beginning as her village is far away. She takes care of herself and washes her own clothes.

PROJECTS

Occupation

Amrita had a lot of enthusiasm in doing this topic and was very attentive. She drew beautiful pictures on this topic. She had taken the role of a teacher and was very interested in finding out about a teacher. At the end of this topic, she also presented what she has learnt in this topic to her friends. While presenting, she was loud and clear.

Water

Amrita explored various aspects of water in her projects and enjoyed the topic thoroughly. She learnt about the sources of water, water pollution, and the importance of saving water. She understood the usage of water, differences between brackish and fresh water, and methods of water storage.

Amrita studied the three states of water and the water cycle. She tried to explain this in her own words. Additionally, she discovered creative ways to utilize rainwater effectively and expressed great interest in these concepts. She also loved the activity of blowing water.

Birds

Amrita showed a keen interest in going for nature walks in the garden and watching the birds using binoculars. It was very exciting for her to see the birds with a binocular as it was new for her and it was so clear from afar. Many a times she tried to mimic the birds. She drew the different types of beaks and labelled them. She also watched some videos on birds for knowledge enhancement and she was curious to see the videos of how different birds make their nests.

One of her favourite nest was the weaver birds. She read the living science book and was able to answer the questions verbally.

Human Body

Amrita was very interested and excited about this topic and watched the videos very enthusiastically.

She was curious about how her body works like a machine, but after learning everything about the body she was amazed. While watching the videos, she paid close attention and asked questions in between.

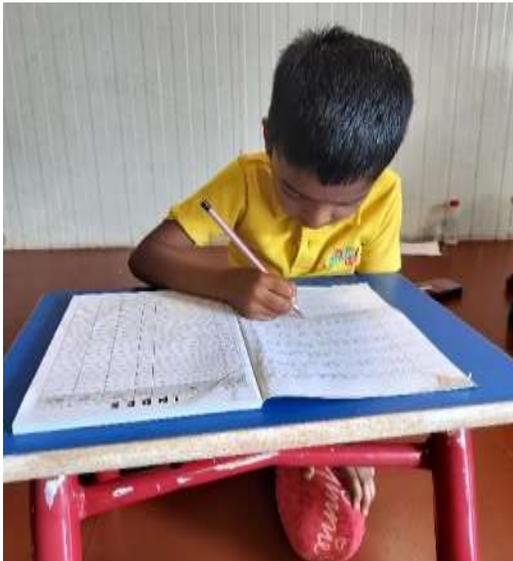

She drew a picture of the lungs and coloured it beautifully. For this she took the help of a book and did it without anyone's help. She read the Living Science Book three and was able to answer the questions from the book. She could also say the basic names of the bones.

ENGLISH

Amrita is very good at reading the English books, and is very good at reading the big words also. She shows a lot of enthusiasm in reading the storybooks with the teacher and by herself too. Whenever she gets time, she tries to pick a book from the group and starts reading or sometimes she takes her notebook and practises writing. She has a very good and neat handwriting. She writes with a lot of patience. She tries not to waste her time and do her reading or writing instead. She is very attentive while listening to stories and when a question is asked, she is able to answer in English. Whenever she is doing a play, she is very good at memorizing the dialogues very quickly.

MATHS

Amrita is a very smart girl and is very intelligent. She is quick in grasping the new concepts which are taught in the class. She has a lot of interest in doing maths. Whenever she is learning any new concept, she shows a lot of enthusiasm and learns with a smile. She knows the addition of two-digit and three-digit numbers with carry over and subtraction of two-digit and three-digit numbers with borrowing. She is very good at doing the addition and has a lot of confidence. While doing the subtraction, she knows the concept but sometimes makes mistakes.

She needs to concentrate more while doing subtraction. She has learnt the multiplication tables till ten and is very good at it. To make it more solid she is playing the multiplication tables game for fifteen minutes every day. She enjoys playing the game. Now she is doing class two book of maths and is fast in doing it without any help. But when it comes to word problems, it's a bit tough for her to understand it and do the sum.

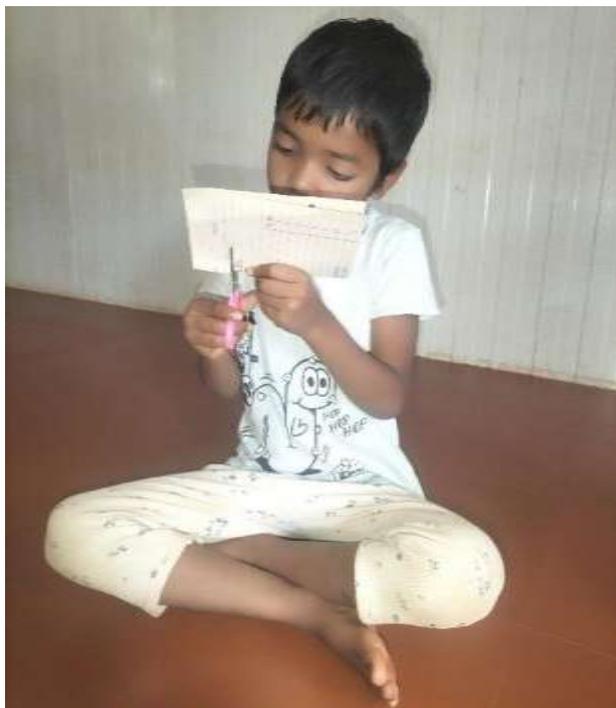

HINDI

She loves listening to stories and actively engages by attentively responding to questions. She has good reading skills and can read short stories fluently. She can understand the stories she is reading but is very nervous to tell the same story in the class, but she tries. Amrita has improved in her spoken language. She has a good pronunciation. She has learnt writing all the alphabets. She has a good handwriting. She is able to form sentences using a given words. She is able to write a paragraph on any given topic. She is very good at her work and is a talented girl. She has learnt the names of months and days in Hindi.

ART

Amrita is a creative and enthusiastic student who enjoys engaging in various artistic activities. She approaches every task with curiosity and interest. Her work is characterized by good

attention to details, whether she is colouring or folding paper or doing craft work. She takes particular interest in cutting paper and using scissors, often repurposing wastepaper into small bits for creative work. She has made Santa figures for Christmas, birds, butterflies with leaf painting, lamps, ships and car. Amrita's willingness to embrace a variety of tasks allows her to engage herself in all kinds of work.

SINGING

Amrita always sits erect in the class. She is eager to learn songs and also loves doing actions. Her favourite song is Suraj ki garmi se and Pighla hai sona. She learns the songs very fast because she is focused while learning.

DANCE

Amrita is very good at dancing. She enjoys all types of dances and concentrates in class without getting distracted. She learns the steps very quickly. For Christmas, they learnt the dances Dekha Ho Dekha and Feliz Navidad. Her body movements are fluent. Now, they are learning a dance, Tu Lagi Re Chhe Swana. Amrita is good at dancing to Pahadi songs and semi-classical songs.

PUZZLES

Amrita is a very quiet girl. She is always on time for the class. She solves puzzles very quietly with her friends. She likes her puzzles class. She likes to solve the puzzles of fairies. She is able to solve 200 to 500 pieces of puzzles with her friends.
