

**PINKI GOUDA**

**DOB – 5<sup>TH</sup> SEP – 2006**

**REPORT FOR 2023-24 (SECOND TERM)**

**ATTENDANCE. \_\_\_\_\_ DAYS OUT OF 366 DAYS**

## **Introduction**

I'm Pinki Gouda, currently studying graduation first year at Auro-Mira Vidya Mandir in Kechla. Right now, I'm gearing up for my upcoming 8 papers which I will be appearing in coming December. My admission has been done in IGNOU. Alongside my studies, I'm

actively involved in volunteering with younger children. I take four classes. I have a math class in the peace group at 10:30 and in the afternoon I have English class with the bliss and at 1:30 PM and then at 2:30 PM I have Hindi class with Unity group. In the evening I have a self-study class with courage group at 7:00 PM. I also have a weekly bathing session with the Unity Group children, ensuring they maintain proper hygiene. I conduct these sessions from 4:15 PM to 5:15 PM. I have a deep passion for basketball and volleyball and enjoy playing them.

## **Shramdan**

Shramdan is something I take pride in. I contribute in the girls' hostel by performing various tasks, including toilet cleaning, filter cleaning, floor cleaning, and staircase cleaning. On

Sundays, I also inspect the rooms of younger children to ensure cleanliness and also clean my own room. My regular Shramdan routine is in the morning from 6:30 AM to 7:30 AM, although it can sometimes extend if I start late. I'm very diligent in my

tasks and often lend a hand to other children if I finish my work early. When it comes to specific tasks:

**Sweeping and Cleaning the Floor:** I take care of both the south and north buildings. I start by sweeping the floor and then proceed to either wipe it by hand or use a mop, depending on the situation. If I complete my work swiftly, I often assist other children with their Shramdan.

**Toilet Cleaning:** On toilet cleaning days, I gather all the necessary supplies. This includes washing washbasins, toilets, and bathrooms. Sometimes, I scrub the walls of the toilets and bathrooms. Even in cold weather when I don't feel like dealing with water, I persevere because the work must be done.

**Staircase Cleaning:** During staircase cleaning days, my partner and I work together to sweep the entire staircase, from top to bottom. We then wipe it clean.

**Filter Cleaning:** I take charge of cleaning both filters in our hostel. This involves scrubbing and refilling them with water.

**Drain Cleaning:** My partner and I tackle drain cleaning by using brooms to remove leaves and ensuring the drain is clean.

**Sunday Cleaning:** Every Sunday, I clean my clothes, room, cupboards, and dusting with my roommate Brishti.

## Games

I'm a big fan of playing games, and basketball is my absolute favourite after that game I love volleyball. I enjoy playing volleyball with my friend in the second-round of games. I participate in the second round of basketball with the elder didis and bhaiyas, and I absolutely love it. I play from 5:15 PM to 6:15 PM. Lately, I've noticed an improvement in my shooting skills, which makes me even more passionate about the game. I also volunteer on Wednesdays, overseeing bathing sessions for Unity Group children to ensure they follow proper hygiene practices.

## Festival

I had a great time participating many festivals in our school. I had also participated in the sports day and I had made the mementos of horse with the help of some of my friends. On the sports day I did marching with everybody. I had also decorated the field with some of my friends and I enjoyed it a lot. I had also participated many festivals like, Christmas day, saraswati puja, the

Mother's birthday and Holi. On Holi I ate some sweets and played with the natural colours made in our school.

## Trip to the north-east

I had gone on a trip with faith group, progress group, three teachers and some aspiration group children. It was a beautiful trip, and I liked a lot

visiting the temples, passes, monasteries and playing in the snow. Before going on the trip, I was very excited, and I had started packing my bags one week before the trip. We started our journey on 24<sup>th</sup> February in the morning and loaded our things on a van and went to Koraput station. We sat on Sambleswari express and arrived at Howrah in the morning. After we reached Howrah we got fresh and we went to Botanical garden and there we saw a very big banyan tree and many other flower and trees. After that we went to the Indian museum and there we saw many types of different stuffed animals. Later we visited Victoria Memorial, it was a very beautiful place and we saw many painting, weapons, etc. In the evening we caught a train and left for Guwahati. We arrived at Guwahati in the morning and went to visit Kamakhya temple. We also visited the Gandhi mandap where we saw a huge statue of Gandhiji and visited its view point. Later we visited Dighalipukhuri War Memorial. We

stayed for one night in Guwahati at Hotel Blue Moon. And the next day we left for Meghalaya there we visited Thangkharang Park, where we saw the seven sister falls. Later we visited Nohkalikai falls and after that we visited

Mawsmi cave. The cave was really very beautiful but it was very dark. The next day we went to visit India and Bangladesh border (Dawki). It was really a very beautiful place and the water was so clean that I also wanted to swim. After that we went to see the Sohra root bridge. It was an amazing bridge made up of roots. After that we went to visit the balancing rock. Later we went to visit Mawlynnong village- Asia's cleanest village. It was really a very clean village and it was a very beautiful village. We stayed two nights in shilling. The next day we went to see Ka phan Nonglait Park and animal land where we saw different types of ducks, birds and some

animal. After that we went to Bianchi memorial hall where we saw statues of Jesus Christ. The next day we visited a tea garden in Assam. It was a very big tea garden and it was very beautiful. We stayed in Kaziranga for one night. The next day we woke early and went for the elephant ride. The ride was

so amazing- to sit on the elephants and ride on them. While riding the elephant we saw many animals such as wild boars, hippos, eagles, deer, etc. After this we had gone to Dirang in Arunachal and halted in the Ramakrishna Sharda mission school hostel where we got many new friends. On the way to Tawang we saw the Jog falls. It was a beautiful sight, seeing the tallest waterfall of India. Then we went to Tawang and on the way we halted at Sela and played in the snow. In Sela the wind was very cold and our hands were paining while we played with the snow but I enjoyed it a lot. In Tawang we stayed in the army camp. The following day we went to Bumla. There we saw

the Indo-China border. There too we played in the snow. In the afternoon we had gone to see the Tawang Monastery which was the second largest monastery in the world. After this we reached Rupa, where we stayed in the monastery. The next day we had gone to Bomdila. Here we visited places like Science city, the zoo and the museum. In science city we read many things about the human body parts, about various monuments and buildings, plants etc. In the Tribal museum we saw many things related to the life of the tribals, such as weapons used for hunting and warfare, and baskets, vessels etc. used for domestic uses. The next day we left for Gangtok. The next day we visited Nathula and saw Indo-China border. While coming back we did Yak riding. It was so much fun but first when I sat on it then I was feeling scared. We also had gone to the flower garden, where

we saw many different types of flowers. The next day we had gone to the Temi tea garden of Sikkim. It was such a vast area, it was so lush and green. After this we left for the Char Dham in Namchi. It was a very big temple and it was really a very beautiful place. In that temple we clicked some photos and we got some Prasad from the temple. Later we caught a train to Howrah and reached early morning. We visited the Dakhineswar temple and then we went to visit Belur Math by ferry, across the river. After that we went to science city. In the science city we played many games and learnt many new things. Next we went to the Nicco Park where we played many games such as sitting on the skydiver, driving mini electric cars, the tornado, the cyclone, the horror tunnel,

etc. which chilled my spine. After having a lot of fun we left for home at night and on the 13<sup>th</sup> of March in the night we reached Kechla.
