

Amita Jani

DOB-06th MAY -09

Annual Attendance 366 days out of 366 days

Report for 2023-24 (Second Term)

Introduction

My name is Amita, and I am 15 years old. My school day typically begins at 8:30 a.m. with a lunch break at 12:30 p.m. Following lunch, from 1:30 p.m. to 3:30 p.m., I attend classes such as Hindi and Odia, as well as participate in extracurricular activities including dance, art, gardening, and more. I have a keen interest in playing basketball and football. After my activities, I take a bath and engage in meditation. Following meditation, I have a maths class with Ambika didi. Later, at 8:00 p.m., I have dinner, followed by self-study until 9:30 p.m. when I go to sleep.

Academics

Currently, I am preparing for my final board exams of 10th NIOS in all subjects. On March 15th, along with my friends, I attended the practical exams for maths and science. To prepare for maths, I am revising by solving past year papers and taking tests based on solved papers. In science, I am focusing on key topics such as Mendeleeev's periodic table and Bohr's model of the atom, among others, through test practice. Additionally, I am regularly revising biology diagrams and testing myself on them every other day. For English and Hindi, I study the chapters and solve previous years' question papers. I feel well-prepared for the exams,

especially since my date sheet has been released. Currently, I am concentrating on map work and revising political science in social science.

NORTHEAST TRIP

My journey began on October 29th. We initially took a train from Paliba to Koraput and then transferred to another train from Koraput to Titlagarh. We spent one night at Titlagarh before heading to Kolkata the next morning. In Kolkata, we visited Alipore Zoo, where we encountered various animals. After lunch, we proceeded to Guwahati, stopping at the Sri Manta Sankardev Kalashetra Museum. The following day, we visited Maa Kamakhya Temple before traveling to Tezpur. In Tezpur, we explored Agnigarh, Maha Bhairav

Temple, and Ganesh Ghat before continuing to Rupa. We stayed overnight at Rupa's Thonkong Monastery and then travelled to Twang the next morning. On November 4th, we visited Bumla Pass, where we witnessed the China border, evoking a strong sense of patriotism. In the afternoon, we explored Buddha Monastery, Buddha Park, and War Memorial before retiring for the night. The next day, we returned to Rupa, where we bonded with the monks through activities like football and dancing. In the morning in Rupa, we enjoyed breakfast consisting of eggs and milk. Our visit also included exploring a Kiwi orchard and tasting kiwis. Subsequently, we journeyed to Kaziranga, where we spent a night and embarked on a thrilling jeep safari in Kaziranga National Park, sighting elephants, rhinos, and wild buffaloes.

Continuing our adventure, we proceeded to Shillong, Meghalaya, amidst rain. During our stay, we visited Elephant Falls, Seven Sister Falls, Mawsamai Cave, and Umiam Lake. Despite the dried-up water at Seven Sister Falls, I found Mawsamai Cave particularly intriguing as it was my first experience exploring a cave. From there, we travelled to Guwahati and then Gangtok, where we arrived at midnight. The following day in Gangtok, we visited Ganesh Top, a viewpoint of Gangtok, and Ban Jhakri Falls, where I enjoyed the refreshing waters. In the afternoon, we indulged in shopping at Sikkim Bazaar. On November 12th, we visited Baba Mandir and a lake, followed by a trip to Char Dham and Namchi the next day. Upon returning, we celebrated Diwali, exchanging cultural dances with the locals. On November 14th, Children's Day, we began our journey back to Kolkata, where we explored Science City, Victoria Memorial, and Sri Aurobindo Bhawan. Among these, Science City left a lasting impression with its exhibits on human evolution and a fascinating journey through time and space. Finally, we returned to Kechla, concluding our memorable journey through the Northeast. I am immensely grateful to Tara didi for organizing this enriching experience, which expanded our horizons beyond imagination.
