Basanti Krisani

DOB- 18th June'01

Attendance- 180 out of 183 days

Report- 2023-24 (First Term)

Academic Pursuits

My name is Basanti Krisani, and I am 18 years old. I am pursuing a graduation in English Honours at IGNOU (Indira Gandhi National Open University). I studied BEGC-103 with Nigel bhaiya and Shanti Didi. I covered the entire book with them and completed the question answers from that book. I found the textbook easy because it contained poems and stories. I am studying the other subjects with Pranjal Bhaiya and have completed most of the books with him. I pay attention when Bhaiya is teaching me, but I tend to get distracted when I feel sleepy. I am working on the question answers related to what Bhaiya

is teaching me. I have also started solving previous year questions. If I find some questions too difficult to answer, I seek help from the internet. Remembering the chapters and many of the answers is proving challenging, but I'm doing my best to understand the basics of the chapters. I am preparing for my exams in December.

Volunteering

I am studying and also volunteering for 3 hours with the Perseverance, Courage, and Smile group. I am teaching language classes. In these 3

classes, I teach them Hindi, employing different methods. In the Perseverance group, I check their notebooks to ensure they are reading and completing their work properly. I do the same in the Smile group, checking their notebooks and helping them if they encounter difficulties. In the Courage group, I organize various activities, and I thoroughly enjoy this small group. While

teaching, I engage them in different games related to the activities they are doing, and I also create drawings to help them better understand what

I'm teaching.

Shramdan

Every day, we have Shramdan with different assigned tasks. I am always present for Shramdan, participating in various activities like gardening, hostel cleaning, toilet cleaning, kitchen work and school cleaning. On the days I'm responsible for hostel cleaning, I sweep the entire campus with my friends. On school cleaning days,

I sweep the groups and small pathways. On days designated for toilet cleaning, I clean the bathrooms, toilets, and basins. When it's my turn for kitchen duty, I particularly enjoy cutting vegetables.

Celebrations

I always participate in the school functions and programs. I have a deep appreciation for children performing on stage. On the 15th of August, I took part in a play in English, where I portrayed the character of Chitranjan Das. I had only three lines to remember. On the final day, when I was performing on stage, I was very nervous, and my voice trembled, but I managed to deliver my lines well. On Raksha Bandhan, I tied Rakhis to my friends and enjoyed a lot of sweets in the common room.

Games

Every day, I engage in sports and play various games such as

basketball, frisbee, and volleyball. Before playing, I warm up, and then I join the games. On days when it's my turn with the Carbon group, I lead them in exercises and running. I participate in these activities and also play minor games with them. On Fridays, I have chapatti duty, so I don't participate in sports on that day.
