## Pitambar Muduli

Pitambar has shown immense improvement this year. He has started working hard, is disciplined and tries not to waste time.

There is scope for improvement and he can do better and manage his time better.

Pitambar is doing decently well in all subjects.

He has decided to take up Science at class 12th level and wants to move out of Kechla in 2019.

Pitambar has high ambitions and desire to do well. He has no inhibitions in voicing them.

## Pitambar Muduli

## Sports

Pitambar has put sports on the back burner. This does not mean that he does not go for sports. He does go as he needs exercise and a break. But his focus is on his studies.

Pitambar has been off music and other co-curricular activities this year.

## Pitambar Muduli

## Math

Pitambar is preparing for 10th NIOS board exam to appear in of October 2018. He has covered his 10th syllabus and is revising now. But he is working hard and doing well when he is explained any concept, but forget after some days. Sometimes he makes mistakes in calculations. He takes a long time to solve a problem. His understanding in commercial mathematics is not concrete. He needs to work on that. In geometry he needs to remember all the theories and formulas. He faces difficulties in proving the deductions. He needs to be aware about it and work hard to do his best in the examination.

## Science (Self Report)

Meeta didi had come to Kechlato teach us physics and chemistry of 9th class. She gave us easy notes of 9th class, which helped me to prepare for my test. Sometimes I got good marks and sometimes the marks were okay. We completed 9th book of NCERT syllabus of science and started 10thclass of NIOS. Prakash bhaiya, Meeta didi and Veerinder didi helped us to complete the syllabus of book 1 and 2 of science. Now I am preparing for NIOS board exam to appear in October 2018.I have to focus more on Light energy and Acid, Base and salt chapters. I need to go through the books again and again and do well in my examination.
