

CHANDRA MUDULI

ANNUAL REPORT FOR 2023-24 (SECOND TERM)

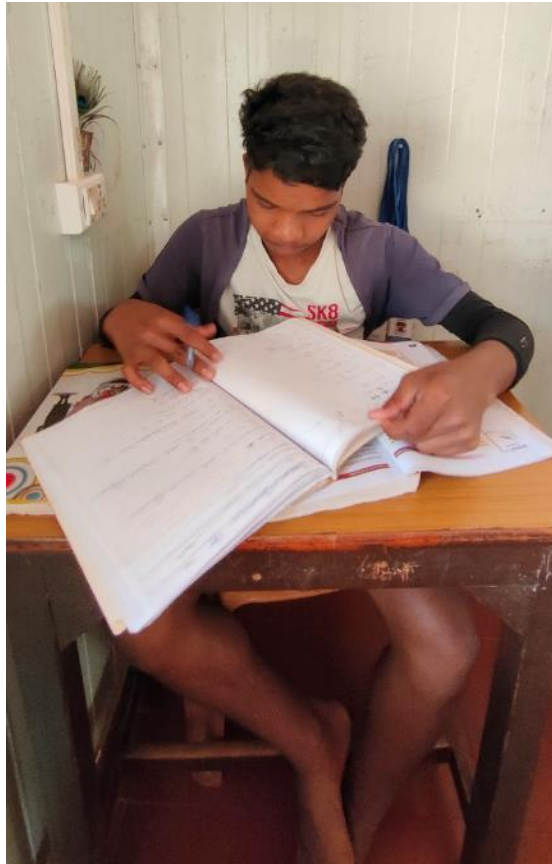

DOB: 19TH MAR - 08

ANNUAL ATTENDANCE 366 DAYS OUT OF 366 DAYS

Introduction: My name is Chandra Muduli, and I am 15 years old. I am a student at Auro-Mira Vidya Mandir. I have one brother and two sisters. My mother's name is Sombari Muduli, and my father's name is Dulbha Muduli. At our school, we celebrate various festivals such as Holi, the Mother's Birthday, School's Birthday, Ganesh Chaturthi, and more. I am passionate about playing sports, particularly football, basketball, and volleyball, with football being my favourite. My conduct towards teachers is respectful. Currently, I am preparing for my 10th-grade exams.

ENGLISH: I have completed both NIOS English books and am now focusing on exam preparation. Reading is a hobby of mine, and I have enjoyed books like Eragon

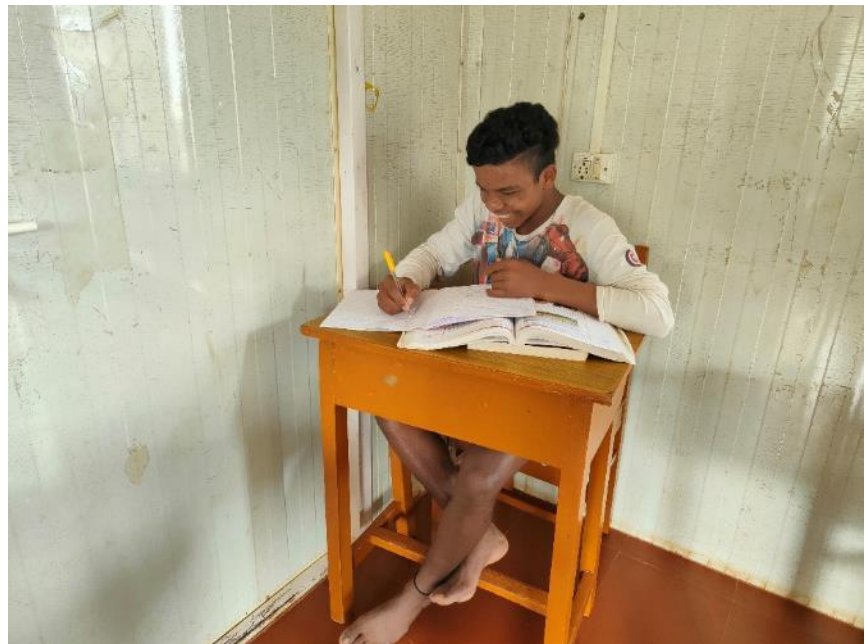

and Harry Potter. I find grammar exercises, including nouns, verbs, message writing, notice writing, and letter writing, intriguing. I enhance my skills by reading stories, answering questions, and seeking guidance from my teacher.

HINDI: Having completed both NIOS Hindi books, I am now dedicated to exam readiness. I engage in practice sessions by solving previous year question papers. I have a fondness for reading Hindi literature and delving into grammar exercises.

MATHS: I am currently studying the 1st book of NIOS Mathematics. Most chapters, such as algebraic expressions, fractions, constructions, and arithmetic progressions, come easily to me. While I find chapters like profit and loss slightly challenging, I have a strong understanding, enabling me to excel in chapter-wise tests.

SOCIAL SCIENCE: For my social science exam preparation, I focus on map work, particularly identifying rivers and airports in India. Additionally, I refer to supplementary books and practice with previous year question papers.

SCIENCE: Having completed both NIOS Science books, I am diligently preparing for exams by practicing with question papers and seeking assistance from my teacher. I have also

successfully completed my practical exams in Koraput, where we conducted experiments on electricity.

GAMES: I actively participate in various sports, including football, volleyball, and basketball. Football, with its dribbling techniques, holds a special place in my heart. I enjoy engaging in exercises like running and joint exercises. During Sports Day, I showcased my skills in activities like unicycle, and I also contributed to decorating the field.

NORTH-EAST TRIP: Commencing on October 29th, my journey took me through various destinations, including Paliba, Koraput, Titlagarh, Kolkata, Guwahati, Shillong, and Sikkim. Highlights included visits to museums, temples, waterfalls, and monasteries. Witnessing the snowfall at Sela Pass and exploring the India-China border were particularly memorable experiences. The trip included visits to Namchi, Baba Harbhajan Singh's Mandir, and various attractions in Kolkata.
