Anuraj Jani

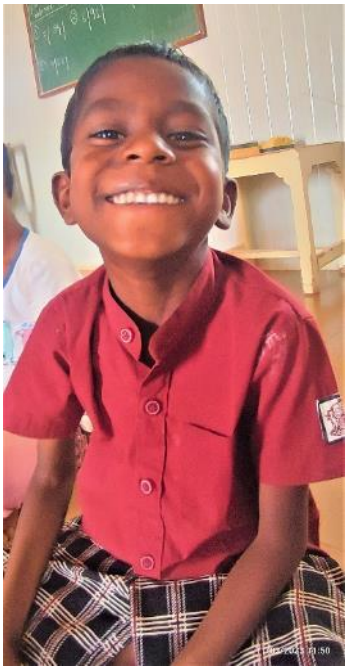
DOB- 10th June'15

Report for 2023-24 (First Term)

Attendance- 175 out of 183 days

Introduction:

Anuraj is 8 years old, residing in the hostel, although he occasionally misses school when visiting home. He communicates politely with other children but may have occasional bouts of rudeness. Anuraj maintains a neat appearance when attending school and exhibits good behaviour, sitting properly in class while paying attention.



English:

Anuraj is an intelligent and confident student who speaks English fluently and remembers lessons. He actively participates in discussions and is unafraid to answer questions. He has learnt all 26 alphabets and their sounds but occasionally misses lessons due to holidays, causing some confusion in letter sounds. Anuraj can read two and three-letter words and write his name in English.

Hindi:

Anuraj is a very smart boy who has learnt alphabets and their sounds by using picture cards with words beginning with the respective letter. However, he occasionally gets confused. His pronunciation is good but could become more precise with extra practise. He actively responds to questions in class and participates in group discussions. Anuraj enjoys listening to stories and tries to create his own, sometimes struggling to finish but persevering. He learnt two poems quickly and two songs, "*Lehra do*" and "*Meri*

Rakhi ki Dor." To excel, he needs to pay more attention in class. Anuraj creates drawings of various trees and body parts and has memorized the names of all body parts and fingers. He eagerly enjoys games related to the five senses.

Projects:

Anuraj displayed great enthusiasm and a strong aptitude for learning in various subjects, as demonstrated by his performance in the following topics:

Plants and Leaves: Anuraj approached the Plants and Leaves topic with genuine excitement. His commitment to the activities was evident in his sincere and proper engagement with the subject matter. He drew an accurate picture of a shrub, demonstrating his quick learning ability. Anuraj displayed remarkable memory retention, being able to recall everything taught in class. He answered questions regarding the importance of plants with ease. His ability to recognize and name leaves was commendable. Anuraj could identify leaves through touch and observation. He had memorized the names of plant parts, leaves, and flowers by heart. After a visit to the school garden, Anuraj now possesses knowledge about different types of plants (herbs, trees, shrubs, and climbers). He also comprehends various food products derived from plants, such as pulses, cereals, oil seeds, and spices, complete with their names. When asked questions about the topic, he confidently answered most of them.

Water Topic: In the Water topic, Anuraj learnt about water sources and their uses. He demonstrated his ability to answer questions related to water. His understanding of the water cycle allowed him to confidently explain the process. Anuraj was clear about the three forms of water (solid, liquid, and gas)

and recognized the importance of conserving and not polluting water. His excitement for experimentation was evident in his participation in activities involving filtration, sinking, floating, and solubility. He even visited the kitchen with his friends to observe the process of evaporation. Anuraj's artistic talent shone through as he created beautiful drawings illustrating the water cycle, sources of water, and the importance of water. When questioned about the water topic, he successfully answered all questions.

Air Topic: Anuraj's enthusiasm continued in the Air topic. He approached the subject with inquisitiveness, asking numerous questions during class. His participation in experiments was a source of enjoyment, and he excelled in both conducting and explaining them. He displayed a deep understanding of the topic. Anuraj's active engagement during the project class, where he often answered questions first, showed his eagerness to learn. His knowledge expanded from the Water topic, and he now possesses basic information about air. When questions were posed about the topic, he confidently answered all of them.

Anuraj's consistent engagement, active participation, and ability to comprehend and remember complex topics indicate a strong aptitude for learning and a promising future in academics.

Maths:

Anuraj is proficient in writing numbers up to 500, although his handwriting tends to be small. Previously, he faced occasional confusion while writing numbers. He has successfully learnt to write numbers in expanded form with symbols. Anuraj also understands and can work with less than and greater than symbols, arranging numbers in ascending and descending order. However, he did encounter some challenges related to carryovers and hundreds place addition. Performing calculations on the abacus was an easy task for Anuraj. In subtraction, he initially faced similar difficulties but, with practice, has managed to overcome them. He is currently delving into the world of multiplication and learning multiplication tables.

Puzzles:

Anuraj is genuinely interested in puzzle classes and prefers Spider-Man-themed puzzles. He consistently arrives on time and successfully completes 200-300 piece puzzles with his partner. Anuraj maintains concentration during the class and avoids causing disruptions.

Art:

In art class, Anuraj enjoys creating drawings and engaging in activities like paper folding and crafts. He does these activities meticulously and takes care to keep his paper neat and clean. He loves depicting nature and colours his drawings with great care and patience. Anuraj always approaches his art class with dedication and strives to improve each time.

Dance:

Anuraj dance preference is Zumba. While he initially found it challenging to grasp dance steps, he gradually improved. He performed a dance for the 15th of August, "Chak De India," after some repetition of the steps. He is not shy to dance in front of the stage.

Singing and drama:

Anuraj has excelled in learning play dialogues and thoroughly enjoys performing various roles. He displays great dedication to his performance, both in plays and songs. Although he quickly learns lyrics, he can occasionally get distracted by friends. He's also proficient in reciting poems.

Games:

Anuraj enjoys playing football and dodgeball during games. He diligently follows exercise routines, and he maintains high stamina even after running.
