

Madhumay Sahu

DOB-24-Nov-03

Report for 2022-23 (First Term)

I am Madhumay Sahu. I am 19 years old, and I am studying in class 12th. I have opted for Science stream and my subjects are: Maths, Physics, Chemistry, English and Computer Science. I appeared for my Computer Science exam in October 2021 and for Physics, Chemistry and English in April 2022.

Chemistry

Chemistry is a difficult subject for me. I could not clear the subject in the first attempt. So, I am preparing for it again to appear in the month of November.

Physics

I have cleared my Physics paper in the month of April.

English

I cleared my English paper and got satisfactory marks.

Mathematics

I am now preparing to give the Maths exam in the month of November. I have completed the syllabus with Srinath bhaiya and Neha didi. Now Srinath bhaiya is providing us with our chapter wise tests. I am struggling a bit in the chapter-Mathematical reasoning. But the rest of the chapters are clear to me. But I still have to practise a lot to score good marks. I have now started

solving the previous years' question papers.

Shramdaan

I don't go for shramdaan in the morning. My shramdaan time is 2:30-3:30pm. I go to the kitchen everyday - there I cut vegetables, help to prepare the dinner, serve tiffin, etc. I enjoy doing shramdaan and I go regularly for it.

Games

I am regular for games. I have improved my stamina. We play a variety of games like football, volleyball, basketball, etc. We do exercises before we start our games. We play football thrice a week. I enjoy the game with my friends. I am good at volleyball and I enjoy it when I get more passes. In the case of basketball, I am not so good, but I try my best.
