Tapaswini Gouda

DOB- 5th October'16

Report for 2023-24 (First Term)

Attendance- 176 out of 183 days

Introduction

Tapaswini is seven years old and resides in the hostel. While she occasionally comes neatly to school, she is a regular attendee. Her best friend is Madhurika, and she enjoys playing with her friends. Tapaswini also has a liking for drawing and prefers meals such as puri and poha. She sometimes drops food while eating and is somewhat shy when it comes to talking with teachers.

Projects

1. **Vegetables:** Tapaswini was involved in creating vegetable drawings and knew the names of some vegetables in English. She added an interactive element by asking riddles and sharing information about pumpkins. Her engagement in clay modelling was evident as she made clay models of pumpkins and ladyfingers.

2. **Health and Hygiene:** Tapaswini actively participated in activities related to health and hygiene, especially enjoying the handwashing steps. She also assisted teachers in colouring health and hygiene drawings.

3. **My family:** Tapaswini eagerly embraced the family topic. She drew lovely pictures of her family members, creating a beautiful family tree and indicating their names. She excelled in recognizing family relations and the appropriate titles in Hindi and English. Her enthusiasm for learning was evident in her positive attitude and willingness to absorb new information. Tapaswini was a sweet and helpful presence in the class, and she even learned songs about family members with actions.

4. **Shapes:** Tapaswini showed strong interest in learning about shapes. She easily recognized the names of flat shapes, 2D shapes, and 3D shapes. She confidently learned the number of sides, corners, and vertices using songs. She produced appealing drawings of different shapes, although the precision of her lines could be improved. She enjoyed learning and singing songs about shapes with her classmates.

5. **My body parts:** Tapaswini displayed a good understanding of body parts, having previously learned many of their names. She created drawings with accurate labels. Her proficiency extended to understanding all five sense organs and their functions. She actively participated in activities involving tasting and recognizing different spices and vegetables. Tapaswini quickly grasped the concepts

presented and even learned a song about body parts with their functions, making the learning process engaging.

English

Tapaswini played the character of the mice daughter in the drama and had no dialogues but was responsible for acting. She seemed content with this role. She enjoys singing and possesses a pleasant voice. Pronunciation of some words may be challenging for her. She rarely speaks in the class, and during story time, she might get distracted by her friends.

Hindi

Tapaswini is an attentive and well-behaved student who sits quietly during class. She concentrates well and enjoys listening to stories. Like some others, she needs improvement in her speaking skills. She has successfully memorized the names of shapes in Hindi and is making an effort to remember the Hindi alphabets. Most of the alphabets are remembered by Tapaswini. She has learned Hindi songs, including "Jo Bhi Kam Karo Tum Bacho" and "Bade Savere Bulbul Aati."

Maths

Tapaswini is a bright and sweet student who appears small but is quick to grasp new concepts. She excels in simple addition, such as one digit by one digit, two digits by one digit, and two digits by two digits, both with and without objects. She rapidly transitioned to mental calculations after learning with objects. She is efficient at mental addition and capable of skip counting by twos, both forward and backward. When asked to solve sums, she doesn't copy others and takes time to think before providing an answer. Tapaswini also demonstrates proficiency in identifying numbers that come before, after, and between other numbers and excels in solving addition word problems. Initially, she struggled with more than and less than comparisons but improved over time. She was also introduced to subtraction and, after some initial confusion between addition and subtraction, she began to understand and perform subtraction, particularly in the context of word problems.

Arts

Tapaswini enjoys all activities in art class, with a particular fondness for paper folding and making artistic creations like balls. She creates beautifully detailed flower drawings and values the cleanliness and delicacy of her colouring.

Puzzles

Tapaswini enjoys the solitude of puzzle-solving and gravitates toward themes featuring animals. Her proficiency extends to 50 and 80 piece puzzles, and she consistently approaches her work with full concentration.

Dance

Tapaswini loves to dance and quickly picks up dance steps by observing dance videos. She dances well alone and learned "Vrindavan Mein Gopi Aaye," which she performed during Janmashtami. She is fast in learning dance steps.

Games

Tapaswini is generally well-behaved but may occasionally engage in conflicts with friends. She enjoys the games and is sometimes prone to making excuses when feeling lazy.

Celebration-
