

Manoj Bishoi

DOB-09-May-14

Report for 2022-23 (first term)

Mathematics

Manoj is good in mathematics and takes interest. He listens carefully in the class. He becomes excited when he finds the questions easy to solve. If he finds any question difficult, he sits quietly and thinks to solve on his own. He can understand the concepts and participates in group activities. He has learnt the place value, expanded form, short form, carryover addition and borrowing subtraction of 3-digit numbers. He can also arrange 2 digit numbers in ascending and descending order. He has started writing in a notebook but needs to improve his handwriting. He is good at making story sums on addition and subtraction. He has learnt multiplication table till 10 through game.

Projects

He is a very intelligent boy. He tries to remember everything that is taught in the class. While doing the topic he drew the fruit- grape. He

took help from the teachers while drawing and painting the grape. He made the drawing of grapes on the cardboard also, and for cutting the cardboard his friends helped him. He had gone to the ashram with his mates to see different types of fruits. He collected many fruits from the ashram and took them to the

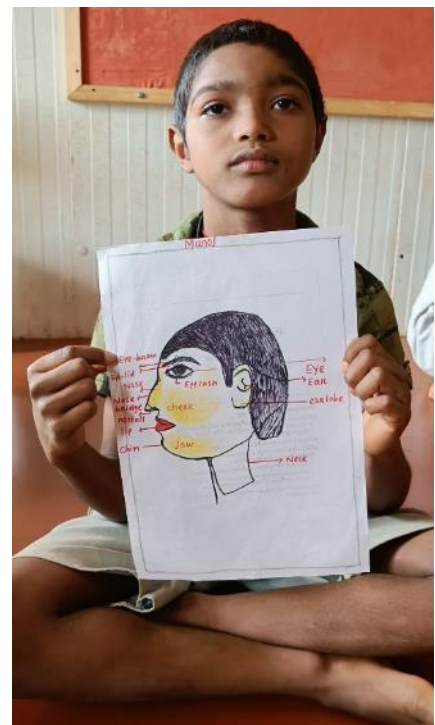

group. By seeing these fruits, he made drawings of them. He learnt that all the fruits have different shapes and sizes and also the number of seeds each fruit has. He learnt the names of fruits in English and many names were new for him. He needed explanation 2-3 times to understand properly. At the end of this topic, he participated in a fancy-dress show, and performed it with costumes on the school's birthday. He needs to overcome his stage fright because he stammers a little when he is on stage.

In the topic health and hygiene, he learnt that he should cut his nails regularly and keep his things neatly. He gets fidgety during the class, when he is with his best friend Ranjit. He understands the instructions better when explained 2-3 times. He needs to improve his

concentration. In this topic he made a beautiful drawing by himself of cutting nails.

When he was doing the topic of 'My body', he liked watching the videos on 'my body'. The part which he liked the most is how the brain sends the messages to other parts of the body and also the skin. He learnt many things about the skin such as how the skin protects us from the sunrays and also how many layers are there in the skin. He also learnt why and how the sweat comes out from inside the skin. He made the drawing of external head and he remembers the names of all the internal organs and also the names of all the external body parts. He went to the

science lab to see the skeleton which is hanging there and counted the joints. He can recognize all the external body parts and a few of the internal body parts. He remembers the names of the body parts but has difficulty in pronouncing some of the words like cerebrum, cerebellum, large and small intestine

English

Manoj is very interested in doing plays, singing and sometimes enacting the words which is told to him like drinking, running, etc. His pronunciation is good. In the play which they performed on Ganesh Chaturthi he had taken the role of Shiva and he could memorise the dialogues very quickly. In singing and drama class he likes to sing the song 'Follow the yellow brick road' because he loves to sing in high tune. He is a good boy and listens to the teachers and does not disturb other children. He loves to read English books. He has read some books in the English class; they are - the three billy goats, the little red riding hood, the sly fox, the ugly duckling, the enormous turnip, etc. He can speak in English

although he finds some words difficult to pronounce. He always tries to speak in English during the class and learns and improves from his mistakes. He loves to do English class. He has learnt some songs in English class like 'Imagine', 'One proud peacock' and some songs from the Karadi tales.

Hindi

He is good at studies. He has learnt the alphabets and is very clear with it; he can recognise all the letters easily. He has also learnt the matras (vowels) and tries to read the words. When he is attentive in the class then he is able to learn the things easily

and quickly and when he is not attentive then he takes time and he asks to repeat it. Now he has started reading the short storybooks and tries to read the books by himself and the word that he is not able to read, he comes to ask. He enjoys singing songs in the class and takes interest in learning songs. He learns the songs very quickly. He has done some of the plays in Hindi. On Janmashtami he narrated the story which his group had enacted. His voice was very clear and loud. He enjoyed doing the play. He likes to take the role of a narrator most of the time. So on Ganesh puja also he narrated the story. On the stage he was very confident and spoke with clear and loud voice. This was his first Hindi play and he did very well.

Arts & craft

He is an intelligent and good boy. He joined school recently, but his hand is very good at drawing. He catches up things quite fast. His skill work is very good and he does everything very neatly. He can do things by himself when he is explained properly. He tries not to take help. He is very friendly with his classmates. He does not talk much or interrupt others' work. He has improved a lot in these few months. He has made butterfly of violet colour to hang on the ceiling and flowering tree with orange flowers. He did the cutting of all the flowers by himself. He has also

drawn a white colour dog and creepers with red colour flowers on them. His drawing and colouring are very good and he does everything neatly. His pencil shading is also good. He has no problem in doing puzzles. He can do all types of puzzles.

Games

On the games field, he takes interest in playing all kinds of games. He reaches the field on time. Although he loves playing all types of games, he prefers playing ball related games more than minor games. He needs to develop his stamina and strength. He can do these by running and playing more games. He enjoys doing simple asanas like tree pose, eagle pose, surya namaskar, double lotus etc. Nowadays he is practising cartwheel. He is learning to play

with the ball by kicking, catching, passing, aiming and throwing.

Celebration
