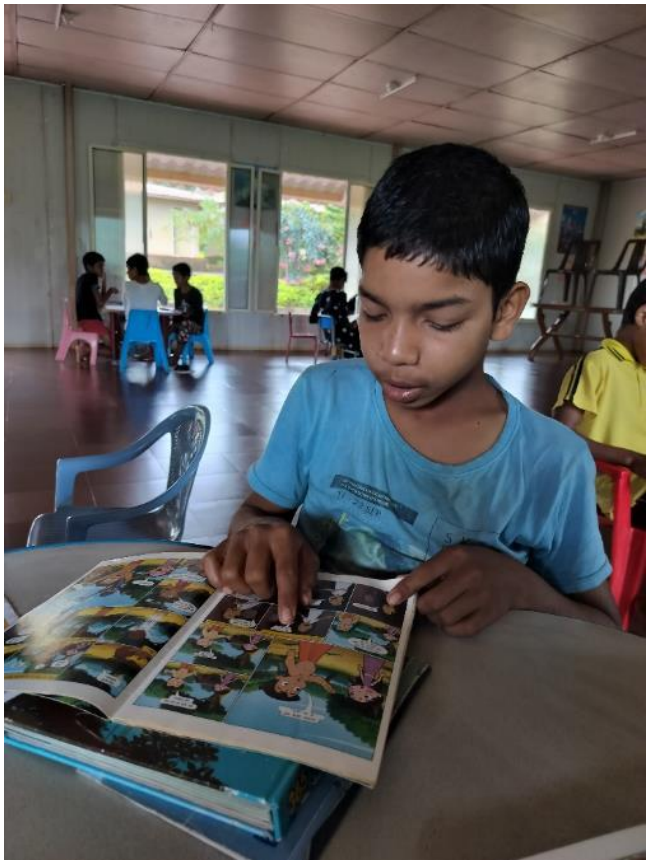
Manish Muduli

DOB- 7th March'12

Attendance- 178 out of 183

Report for 2023-24 (First Term)

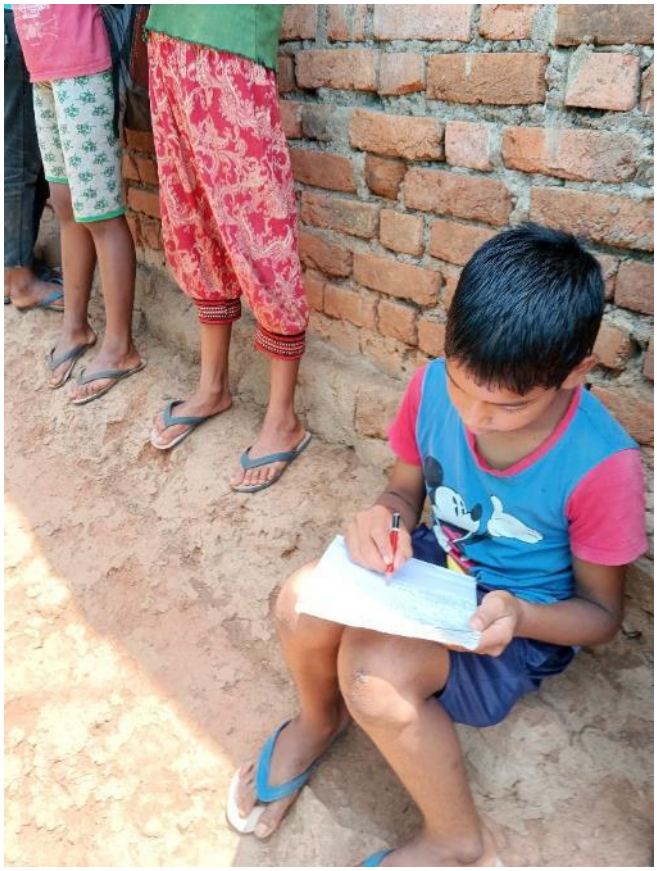
ENGLISH



Watching movies helps me improve my English-speaking skills.

In English class, I engage in various activities such as book work, grammar exercises, group reading, and free reading. We also watch movies every Sunday, and I've enjoyed movies like "Peter Pan," "Free Willy," "Charlie Chaplin," and more.

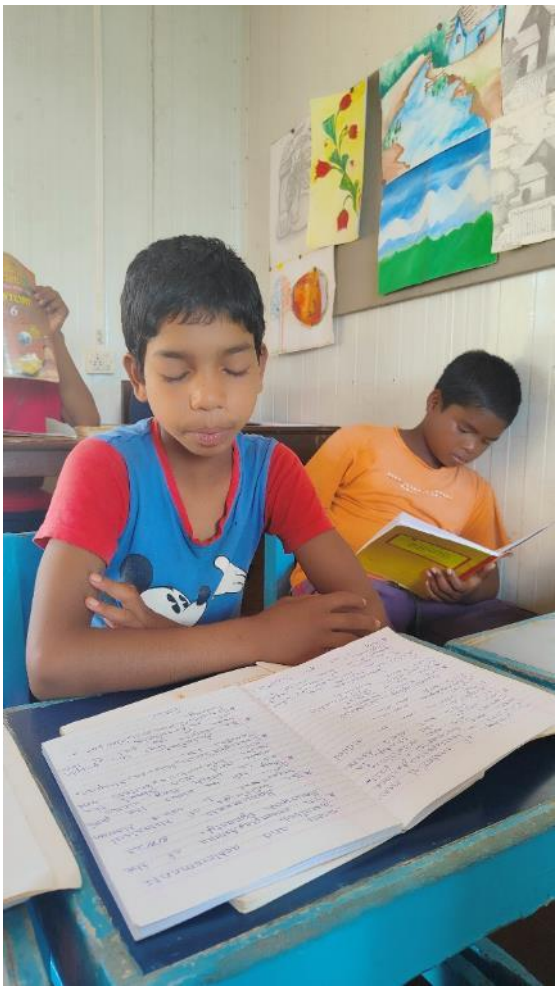
I particularly like reading Panchatantra stories during our free reading time. My favourite books are "Harry Potter" and the works of Roald Dahl, which we read during group reading. In grammar, I'm currently studying the 4th-class book. I've learned about adjectives, nouns, pronouns, adverbs, and using languages.



I make an effort to be on time for class, but there are times when I come in late. During group reading, I've read "Charlie and the Chocolate Factory," "The Witches," "The BFG," "The Magic Finger," "Fantastic Mr. Fox," and now we're reading "George's Marvellous Medicine."

After we read books, didi gives us dictation exercises and homework related to the book we've read. I enjoy English class a lot. Initially, I was only reading books, but now I've started doing exercises from textbooks. I've read a total of 40 issued books, and I'm currently reading "The Great Glass Elevator."

When festivals come around, we learn songs, poems, and participate in dramas as well.



HINDI

Manish has a strong enthusiasm for free reading, as well as group reading. Following his reading sessions, he takes dictations, and his spelling skills are commendable, though some challenging words can pose difficulties. In his class 5 "Abhyas Pustak," he's actively working on model test papers, and most of his answers are consistently correct. However, he should focus on improving his handwriting. In grammar, he is currently tackling the 6th-grade book, displaying a keen interest in various chapters such as gender adjectives and numbers. He

comprehends the chapters well and diligently attempts to answer questions, with most of his answers being correct. While he performs well, there's room for even greater concentration during class. On the 5th of July, Manish shone in a play titled "Andher Nagri Chopat Raja," portraying the role of a "Halwai" with a memorable performance. He was a bit nervous on stage, but he thoroughly enjoyed the experience. On Raksha Bandhan, he showcased his poetic skills, reciting a beautiful poem, and also learnt a song.

MATHS

Manish exhibits a strong aptitude for mathematics and is currently studying the 6th-grade mathematics book, specifically focusing on the "Ratio Proportion" chapter. Even though concepts like Integers, Algebra, and Linear Equations were initially unfamiliar to him, he grasped them quickly and demonstrated strong problem-solving skills. He excels in understanding word problems and creating equations. Manish consistently gives his best effort and regularly achieves test scores of over 70%.

SCIENCE

Manish is a very hardworking and focused child. He is interested in science and likes to learn through experiments and different activities. He loves

participating in discussions and can understand and answer questions. He needs to improve his handwriting, but regular practice will enhance his speed and handwriting. Manish gets easily distracted if he does not find the topic interesting. To keep him engaged in class, questions are asked to him. He reads fluently, but his understanding could improve. His favourite chapter was "Safety Rules in Roads" because he learned about various types of rules and drew different pictures. He has finished the 5th-grade science book and started the 6th-grade book. If concepts are not repeated regularly, he tends to forget them. He needs to stay focused on his work and work hard to improve.

SOCIAL SCIENCE

Manish is a diligent and obedient student. He completes assignments with proper handwriting and accurate spelling. He is continuing his studies in history after finishing the civics book and taking the test. During group discussions, he actively participates, striving to provide correct answers and seeking clarification if needed. Manish works efficiently and tends to complete tasks ahead of others.

ODIA

Manish expresses his ideas, thoughts, and opinions clearly in the Odia language. He reads and writes proficiently and is currently studying the class 1 book.

COMPUTER

ARTS

Manish takes delight in art class, particularly because it allows him to engage in crafting and create amusing artworks. His enthusiasm for drawing is evident, and he acknowledges that art contributes to his overall knowledge. However, Manish sometimes finds it challenging to remain focused and tends to engage in conversations with classmates. He has explored paper folding, crafting various shapes, such as fish, Santa Claus, and dogs. Manish has yet to delve into oil pastel colouring art.

DANCE

In dance class, I enjoy dancing, especially to village songs. We start by learning the basics of dance. I attend dance class once a week. First, we focus on learning the basic steps of dance, and then we put them into practice. I always do warm-up exercises before starting to dance. Our dance class is from 2:30 p.m. to 3:30 p.m.

Sometimes, I end up getting punishments because I do naughty things. So, I've learnt to behave better in class.

Up to now, I've learnt various dance forms like Kathak, Bharatnatyam, folk dances, and others. We also learn about "Hastamudras," which are hand gestures in dance. I've learnt about "Asamyukta hasta" and "Samyukta hasta," which are specific hand positions in classical dance.

I also enjoy watching movies featuring some of India's best dancers to further inspire and improve my own dance skills.

MUSIC

Manish, who has recently joined the tabla class, has learned how to play teental and can accurately recite all the taals. His hand coordination while playing the tabla is very good. He derives great satisfaction from his tabla lessons.

GAMES

Manish is always present in the field at sharp 4 o'clock, ready to start the games. They start by running around the football field and then perform exercises.

Manish always tries to finish before the others. Like the other boys, he prefers playing football over other games, although he is skilled at it. He also enjoys dribbling the ball past his opponents and scoring goals.

SHRAMDAAN

Manish appreciates Shramdan in the morning, considering it beneficial for the environment and the people in the area. He enjoys sweeping the hostel floors, taking great pleasure in ensuring the whole area is clean. He participates in other activities but finds cleaning the hostel the most satisfying.

CELEBRATIONS

20th June Rath Yatra

There were no programmes on the stage on this day. We got to eat Prasad and I danced with my friends in a funny manner. Seeing the others dance was also quite interesting as some were dancing very humorously. All the children were wearing new clothes, including me.

5th July School's birthday

I had taken the role of the Halwai and also of a

narrator in the play taught and guided to us by Manisha didi, Darshana didi, and Pranjal bhaiya. I performed my role without any stage fright. In the Odia play which we performed in the afternoon, I had become a soldier of the king, going into battle. This was taught to us by Papaji.

15th August Independence Day

I had taken the role of a Britisher, and during the play, I was speaking in a British accent which made the audience laugh.

7th September Janmashtami

I liked singing the song 'Tum Prem Ho Tum Preet Ho' taught to us by our teachers. I was quite confident while singing the song as my friends were beside me.

19th September Ganesh Chaturthi

On this day, I liked watching the performances of the other children and also the jokes cracked by my friends. I too participated in the event by cracking jokes for the audience with my friends.
