

# Manju Bishoi

**DOB- 09-Feb-13**

## **Report for 2022-23 (first term)**

### *Mathematics*

Manju is a keen learner and takes an active role in the group discussions. She has learnt expanded form of 3-digit numbers, place value, carryover addition and borrowing subtraction. She can arrange 2-digit numbers in ascending and descending order. She is able to read numbers and her pronunciation is very clear. She has started using a notebook and her handwriting is good. Her calculations are accurate most of the time.

She can write numbers till 1000 and can tell the after, before and between numbers.

She likes to make story sums on addition and subtraction and can understand the word problems. She enjoyed playing games and has learnt multiplication table till 10.

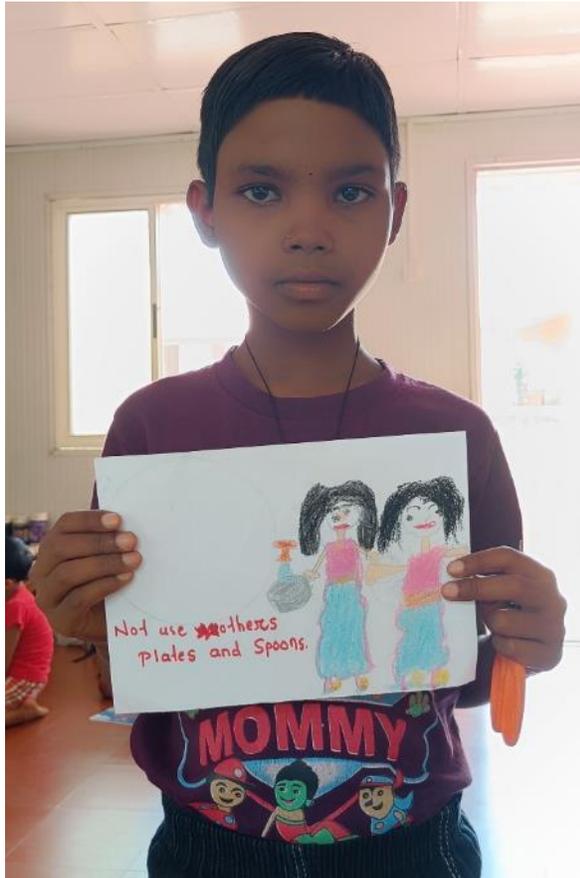

## *Projects*

She is a curious child and loves to learn new activities. She enjoyed doing the project on fruits. She loved doing the drawings and paintings while doing this topic. She made a beautiful drawing of kendu and put it on the chart paper and wrote the benefits of eating it. She also drew

it on the cardboard and as she was facing difficulty in drawing on the cardboard, she took the help of teachers and also while painting she took help as she was confused which colour to apply on the fruit. After making the drawing she had to cut the picture, but it was very hard for her to cut the cardboard so she took the help of her friends. Earlier she did not know the English names of many of the fruits but when she was taught, she was able to learn and remember them very quickly. She was very happy when she learnt the names of the fruits in English because when the children were

asked to tell the names of the fruits in English, she would be the first to answer. She is a brilliant child and always tries to remember whatever is taught in the class. She was eager to learn whether all the fruits have same taste or different and whether they have same colour or different. She was given many types of fruits to identify by its colour and its taste. Also, she was given fruits to look at how many seeds it has. Whenever she could not understand what was being taught, she would ask the teachers to explain it once again and then she would have clarity.

In the topic of 'Health & hygiene', she learnt about the good habits and ways of keeping the body clean and healthy. She learnt that we should brush our teeth twice a day and take a bath daily. To keep our body healthy, keeping the body neat

and clean and also eating proper food is a must. So, after this topic she applied the good habits in her daily life.

In the topic 'My body', she made the drawing of the human skeleton. In this topic, she did many activities like drawing, colouring and watching videos related to the topic. To know more about the human skeleton, she saw many pictures and also went to the science lab

to see the model of the skeleton and touched it and counted the joints. While drawing the picture of skeleton she took the help of the teachers. She also watched the videos on 'My body' and she really enjoyed while watching them as she learnt that she should exercise every day to keep her body healthy. She tries to speak in the class even if her answers are wrong, but she needs to pay more attention as she sometimes gets distracted by her friends sitting beside her and also talks when it's not necessary and fidgets.

### *English*

Manju is an intelligent girl. She concentrates in the class. She is very fast in catching up the songs and poems. She is very enthusiastic in listening to stories. It's very rare that she gets distracted with anything or anybody. She is a quiet and an active girl. She loves to do English class very much. She can speak in English and can pronounce the

words well but needs some more perfection for which

more practise is required. She tries to speak in English all the time, especially during the class. She has read some English books of level one and level two. Some of them are -The little red riding hood, The sly fox, The little red hen, The three billy goats, The magic porridge pot, The ugly duckling, The enormous turnip, etc. She loved

reading and still loves reading all these books. In English class when she reads books and when she is unable to read a word then she always asks the teacher for help. She has also learnt some songs such as 'Imagine' and 'One proud peacock'.

### *Hindi*

She is an intelligent girl. She has learnt all the alphabets and she can recognise each letter very clearly. She has learnt the matras and can also pronounce the words with the matras. She has also started reading the short storybooks. She is interested in learning the language, so she tries to speak in Hindi and also asks her doubts while reading so that she becomes clear about it and

learns something new every time. She takes interest in learning the songs also. She sings well and likes to sing solo in the class. She takes time in learning the lyrics of the songs. Once she listens very carefully, she learns and remembers them. She has done some Hindi plays as well. Her first play was 'Phalon ka durbar'. She was a child in the play for which she had memorised her dialogues well and spoke with confidence in a loud and clear voice in front of the audience. She performed the play on the 5<sup>th</sup> of July.

### *Arts and crafts*

Manju is an intelligent girl and has a good memory. Whatever she is taught she does very well and finishes her work fast. She does her work with neatness. She is very frank to her class children; she talks to them very politely. Her drawing, colouring and cutting pasting are very good but she faces with a little

problem in doing origami as she finds it difficult to do the folds. In six months, she has improved her

colouring and drawing a lot. She is always eager to do the activities. She made drawings of flowering tree, creeper with flowers and butterfly to hang on the wall, and also made windmill, dog and house. She faces a little difficulty in shading; she tries hard to be better in it. She is able to do puzzles of more than seventy pieces. She is fully concentrated while doing puzzles. She does her work independently, without taking help from anybody. She remains quiet while doing anything. Her drawings are always neat and clean and brightly coloured. She participates in all the activities happily.

### *Games*

She loves playing football and always plays with a smile on her face. Physically she is well grown but she has less energy. She does running and the exercises properly. She shows interest in all the games and plays them to the best of her capacity. She wants to learn new games all the time. On the games field, she takes interest in playing all kinds of games. She needs to develop her stamina and strength. She can do

these by doing running and playing more games. She is learning to play with the ball by kicking, catching, passing, aiming and throwing.
