

# Shiva Kuldeep

DOB- 28<sup>th</sup> March '16

Annual Report for 2023-24 (second term)

Annual Report Attendance- 360 days out of 366 days

## Introduction:

Shiva, the youngest at 8 years old in his group, resides in the hostel and maintains a neat appearance, albeit occasionally forgetting to oil his hair. He is sociable and friendly with his peers, enjoying drawing pictures during his free time and engaging in play activities with friends in the afternoon. Despite his young age, Shiva demonstrates good classroom behaviour by sitting properly and actively participating in class discussions, showing curiosity by asking questions when needed.

## English:

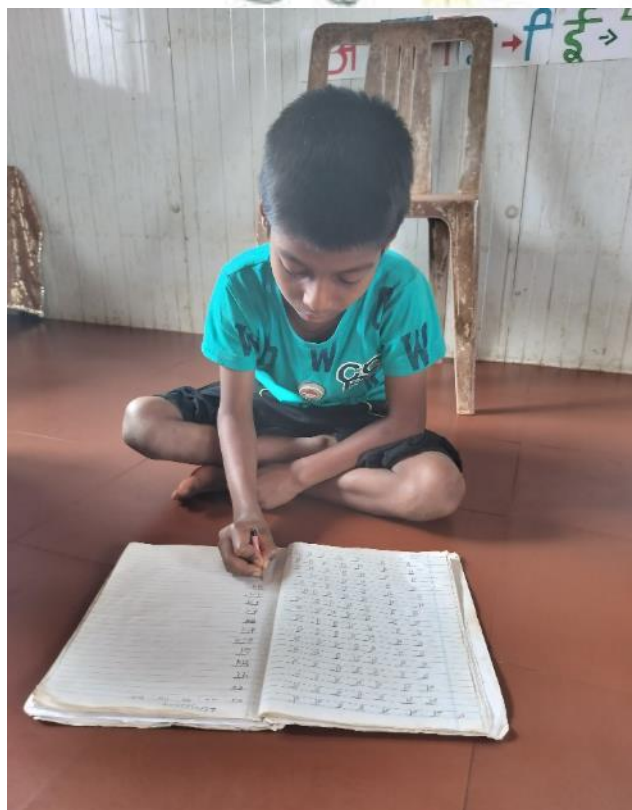

Shiva is an intelligent and confident student who grasps lessons quickly and communicates fluently in English. He comprehends and retells English stories effectively. Over the past few months, he has learned to read and write proficiently, easily tackling big words and storybooks. While Shiva needs improvement in handwriting, he excels in dictations, with all spellings correct. His strong grasp of alphabet sounds aids in his understanding of stories, which he can articulate well in his own words.

## Hindi:

Shiva demonstrates strong reading skills and a quick understanding of concepts, particularly in Hindi. His ability to recognize Hindi letters and matras swiftly showcases his proficiency in language acquisition. Currently, he is

expanding his writing skills by composing words with the matras 'O,' albeit with room for improvement in his handwriting.

While Shiva excels in reading and comprehending stories, particularly enjoying Panchatantra tales, he encounters challenges with pronunciation, especially with certain words. Despite this, he exhibits enthusiasm in storytelling, often accompanying his narratives with illustrations to enhance comprehension.

Engaging actively in classroom activities, Shiva displays a penchant for storytelling and a preference for hands-on learning experiences. His impatience while narrating stories underscores his eagerness to share his knowledge and enthusiasm for storytelling.

In terms of numeracy, Shiva has made significant progress, mastering counting up to 40 in Hindi and displaying accurate recall of Hindi months' names. Additionally, his choice to draw a periwinkle flower

for the Mother's birthday exemplifies his artistic expression and thoughtfulness in commemorating special occasions.

### **Projects:**

**ssss** Shiva demonstrates intelligence and a strong understanding of the concepts taught, coupled with a good memory. He actively engages in discussions, answering questions with confidence and displaying curiosity about new topics. In the food topic, Shiva delved into various aspects such as the importance of food, different food sources,

distinctions

between animal and plant products, and the significance of healthy eating habits. He actively contributed to creating food charts with his peers and displayed artistic flair in drawing food illustrations. Shiva eagerly participated in cooking activities, mastering the preparation of chapattis, dal, and French fries alongside his friends. His ability to confidently answer questions at the end of the topic reflects his comprehension and retention of

the material.

**Occupation:** Shiva exhibits enthusiasm for learning about occupations, understanding key concepts such as the difference between occupation and hobby and the role of occupations in society. He confidently delivered a presentation on engineers, showcasing his understanding and passion for the topic. Shiva actively engages with the material, asking questions to clarify doubts and expressing joy in learning about various occupations through drawings.

**Transportation:** Shiva's keen interest in the transportation topic is evident through his strong understanding and engagement. He grasps concepts such as different modes of transportation, the importance of transportation, and the history of transportation inventions. Shiva actively participates in creating transportation charts with his peers, demonstrating a thorough understanding of road signs and

their significance. His ability to confidently answer questions related to transportation further underscores his comprehension and engagement with the topic.

**Solar System:** Shiva displays a high level of enthusiasm for the solar system topic, finding it both new and intriguing. He actively participates in creating a solar system chart with his friends and

utilizes multimedia resources such as short videos and pictures from books to enhance his understanding. Shiva's curiosity about Mars and other celestial bodies drives him to ask insightful questions and delve deeper into the topic. He confidently sings a solar system song and delivers a presentation on the subject with confidence. Shiva's ability to comprehend and articulate complex concepts related to the solar system reflects his strong grasp of the material.

## Maths:

Shiva has shown remarkable progress in mathematics. It has been observed that he has been actively involved in classroom question-answer time. In multiplication concepts, he can relate multiplication to addition. His ability to write multiplication tables up to 9 independently took him a while to remember. However, he showed his understanding in practical situations. He had played multiplication card games to evaluate his achievement. He displays proficiency in both mental and written calculations involving two-digit numbers with single-digit numbers. It was a little tough for him to do carryover multiplication and remember the steps. So, he applies a breaking-down process to solve two-digit numbers. Currently, he is doing a 1st-grade composite book. He is excellent at reading and comprehending word problems. Occasionally, he is

confused to find the appropriate operation. He might know the answer but is unable to know how he got it. In geometry concepts, he can recognize all 2D shapes and their properties (number of sides and vertices).

### **Arts:**

Shiva takes great pleasure in paper folding exercises, demonstrating proficiency in crafting various shapes such as boats. His drawings often centre around nature themes, executed with skill and attention to detail. Shiva's enthusiasm for cut-and-paste projects is evident, as he eagerly participates in creating visually appealing collages.

### **Dance:**

Shiva demonstrates determination in learning dance and has progressed from learning folk dances to mastering an

Assamese dance routine. While he may take time to learn the steps, he shows eagerness to participate, albeit with some nervousness when performing.

### **Puzzles:**

Shiva likes puzzle solving and can do up to 200 pieces of puzzles. He sometimes is late for the classes. He pays attention to the class but sometimes he starts playing with his friends when he is not able to do the puzzles anymore. He also talks a lot in the class with Anshuman.

### **Singing and drama:**

Shiva exhibits a keen interest in storytelling and enjoys enacting stories with his friends. In singing class, he takes on a leadership role by teaching dialogues and poems to his peers, patiently assisting them in learning. He readily learns song lyrics and poems, displaying

enthusiasm and a cheerful demeanour. Shiva's passion for drama is evident as he secures main roles in plays and delivers his lines confidently during performances, showing no signs of fear or hesitation.

### **Games:**

Base-kickball and football are Shiva's preferred games, and he actively participates in joint and running exercises during sports activities. He demonstrates energy and enthusiasm, particularly when his team is losing, showing a competitive spirit.

**Sense development:** Shiva consistently displays high energy and participation in the sense class, completing tasks with precision and engaging in all activities. He eagerly transitions between activities and particularly enjoys sense-related games like leader-leader change action and Chinese whisper. His observation skills have notably improved recently.
