Introduction:

My name is Sumitra Gouda. I am 18 years old. I have completed my graduation first year and now I am preparing to start my second year. I like to be neat and clean and keep my belongings nicely. I have many hobbies like reading books and watching movies, etc.

Yogasana: Every day from 6 to 6:30 am I do yoga. Actually, I am not very good at many asanas and poses but I have also improved in some asanas. I enjoy doing yoga.

Shramdaan: Every day at 6:30am, I busy myself with doing shramdaan for one hour and I enjoy doing it. I participate in many activities such as school cleaning, gardening, hostel cleaning, kitchen and toilet cleaning.

Volunteering: Besides my studies I have also volunteered to help small children with their studies. I volunteer for 4 hours a day and I teach maths. I like to help the children with their studies. Whenever the children are not able to understand anything, they come to me again to get a better explanation. Whenever I have class where a senior teacher is present, I quietly sit and observe his or her way of teaching, and I also try to do the same when I am teaching. I am teaching the children who are in 3rd, 4th, 5th, and 6th, standard and I enjoy teaching and doing maths with them.
