

# Bhagishri Muduli

DOB-27-Aug-2016

Attendance-176 days out of 182 days

Report for 2024-25 (Second term)

## INTRODUCTION

Baghishri lives in a small hamlet called Ratamatiguda. She resides in the hostel and belongs to a nuclear family having six members- her father, mother, two brothers, a sister, and herself. Her parents are both engaged in farming. All four siblings study at Auro-Mira Vidya Mandir. Her eldest brother, Sanjit, is in Perseverance group, her elder sister, Ruhani, is in Receptivity group, and her youngest brother, Sansidh, and is in the Bliss group. She is staying in the hostel from the beginning, but she doesn't wash her clothes as her mother comes every day to take her laundry.

## SINGING

Bhagishri loves to sing and learns many songs in the class and also loves doing actions while singing. She stays active while singing and doing action. Her favourite song is Kisi Ki Muskurahaton Pe and Pighla hai sona. She remembers these songs very nicely and while learning she had always a smile on her face. She repeats each and every word after the teacher and takes interest in learning songs.

## PROJECTS

### Occupation

Baghishri actively engaged in learning about different occupations and community helpers. She was able to recognize most helpers through pictures. While drawing, she took some help from books and the teacher, and also tried independently. She confidently spoke about the roles of helpers during the presentation. This activity helped her gain a better understanding of the importance of various professions.

## Water

Baghishri actively participated in the water project. She covered saving water and learnt and shared ideas about conserving water affectively. She explored the causes and effects of water pollution and ways to prevent it. She learnt about water cycle and its significance in nature and was able to explain it. She could identify and describe various sources of water, including rivers, lakes and groundwater. She discussed about methods of storing water for future use. She learnt about usage of rainwater for harvesting and irrigation. She also studied the three forms of water- solid, liquid and gas and was able to describe the states. She learnt to differentiate between salty water and fresh water and their uses.

She learnt the usage of water in our daily lives and made drawings of it. Baghishri thoroughly enjoyed this project and showed great interest in learning and sharing her knowledge on the topic.

## Birds

Baghishri was very excited to explore and learn about birds. She loved the early morning bird watching excursion, where she watched birds through binoculars. She observed their colours, feathers, and beaks with great interest. Baghishri made a beautiful drawing of a bird and actively participated in building a nest with straw. She was curious to know, how birds find food and care for their babies. She read books to learn more about different types of birds and their habits.

She enjoyed all the activities and asked thoughtful questions. Baghishri showed great enthusiasm and gained a lot of knowledge about birds.

### Human Body

Baghishri is alert in the class and whenever a question was put to her, she always answered without hesitation. She showed a lot of enthusiasm in this topic and was very interested in watching the videos after understanding the concepts. She became confident and clear about each organ in our body. She was able to tell the names of the bones in our body.

She had neatly drawn some pictures of lungs and had coloured it very beautifully. She read the Living Science Book three and was able to answer the questions orally. She was very excited to learn about how our food gets digested and where it goes. She eagerly watched the videos.

### ENGLISH

Baghishri loves reading in this class. She sits quietly and does her own reading. She had started learning to write alphabets. She learnt it with all her interest. She wrote the alphabets neatly and beautifully in her notebook. She has learnt writing the alphabets in capital and in small letters. She is slowly learning to write the spelling of seven days and the names of twelve months. She has learnt the spelling by writing it in her notebook. As she does group reading, she tries to read properly with proper pronunciation. She answers the questions she is asked during group reading. Her understanding is very good. As she listens to stories; she loves asking the meaning of words that she doesn't know.

### MATHS

Baghishri loves doing maths. She is doing the second book of Composite Maths. Her understanding is good. She is working hard to finish the book. She has learnt multiplication as a new concept. She has learnt the tables till eight. She plays games related to multiplication to remember the tables. She gives tests of addition, subtraction and multiplication and she scores good marks.

## HINDI

Baghishri is a quick learner and an intelligent girl. She has clarity in recognizing the alphabets, with the correct pronunciation. She has learnt writing all the alphabets. She has a good handwriting and write very neatly. She is able to form sentences using given words. She is able to write a paragraph on any topic. She is creative. She can read out the stories fluently and is able to understand the stories and narrate them in the class. She has learnt the names of months and days in Hindi.

## ART

Baghishri is a dedicated and enthusiastic student who enjoys her art class. She carefully follows instructions and puts in great effort to refine her skills. Over time, she has learnt to create various

crafts, such as paper folding car, hanging lamp, Santa, butterfly with paint, bird and ship. Her attentions to details and commitment to neatness help her complete her work efficiently. Baghishri's passion for drawing and creating shines through in her projects, making the most of every opportunity to express herself artistically.

## DANCE

Bagheshree is an enthusiasm dancer who enjoys learning new dance styles. She has learned bhangra, folk dance and performed with great excitement. She has also worked on a water themed dance where she gracefully expresses fluid movements. Additionally, she has learned a classical fusion dance improving her coordination.

## PUZZLES

Baghishri is always on time for the class. She does not disturb anybody and sits quietly during the class. She likes puzzles class very much. She is able to solve 200 to 500 pieces puzzle with her friends. She likes to solve the puzzles of fairies.

## CELEBRATIONS AND GAMES
