

KARISHMA KRISANI

2021-22

DOB- 18-April-2013

PROJECT

Karishma does well in the class. She listens to what is discussed, but she participates a little less. She does her work neatly and on time.

India Topic

Karishma is always happy and smiling. She always takes an interest in learning new things. She takes time and sometimes a little help, but she is eventually able to understand everything. In India topic, she learnt the names of the 28 states as well as their capitals. She chose the State of Karnataka as her sub-topic. She collected her information by reading different books, and then wrote questions and their answers by herself. In reading and writing, she needed a little help but has improved. Through the project, she learned locations of the states, their culture, occupation in the region, map reading, certain important places, and chart making. She made the model of Gol Gumbaz with mud and coloured it. She always tries to do her work neatly and cleanly. While giving the presentation, her voice was loud and clear. She speaks very sweetly, but she made a few mistakes while talking about her model.

Topic- Materials around us

Karishma was very interested to learn about the Materials around her and was hence very attentive throughout this topic. She collected materials from her surroundings and separated them into metals and non-metals. She remembered the qualities of different materials, but was a little confused between metals and non-metals. While making the chart, she wrote about the 'Hardness of Materials' along with her friend Shruti.

Topic- Solar System

In this topic, she was very interested and wanted to know about the planets, stars, galaxies, etc. She keenly found books from the library and read them. After that, she wrote what she understood in her notebook. She made drawings of planets with her group mates, and displayed them

on the board. She also learned a song about the planets and did a performance on the planets on 31st December. Karishma enjoyed painting a diagram of the solar system on the wall with her group.

Topic- Natural Disasters

In this topic, Karishma began by writing whatever she knew about the earth. After that, she participated in a discussion about the structure of the earth and watched videos about different natural disasters. She chose her

understand them. After that she wrote stories on all the qualities of an ideal child and made a storybook. She also participated in a small play about the qualities of the ideal child.

Topic- Artists

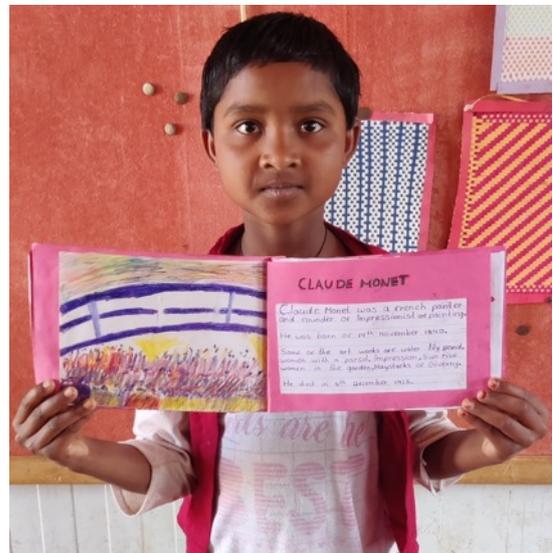

Karishma chose the topic Artists by herself. She chose some Artists like Claud Monet and Michelangelo and wrote about their life story as well as about some of their famous paintings. She also made a storybook with her friends about the selected artists with their paintings.

subtopic to be Volcanic Eruptions. Along with her friend Shruti, she made a beautiful chart about Volcanoes and a model of a Volcanic Eruption. Her presentation of this topic started off a little rocky, she was nervous and was stopping in between, but she overcame her apprehension and confidently gave a good presentation after that.

Topic- Ideal Child

In this topic she read the book 'An Ideal Child' written by the Mother. She read about the qualities of an ideal child and tried to

MATH

Karishma likes math and takes a keen interest in the subject. She is currently doing the textbook of class 4. She concentrates in class but is not able to understand certain topics and will benefit from more practise. In word problems, she can do addition and subtraction on her own, but needs help with multiplication and division. She often makes calculation errors, and even though she calculates fast, she gets stuck because of these.

ENGLISH

Karishma is a very good and fast reader. She reads the stories fluently and she is able to break big words very easily. Her writing is good but needs a little more work. She can speak English well, but she sometimes drags words. She is a very good

actor. She has a very good memory and is able to remember long dialogues quickly. Whenever the group learns songs, she is able to catch the songs very fast. She is very good at writing poems.

ODIA

Karishma can read and write Odia till 'Oo Matra'. She is interested in singing songs and listening to stories. She can read and understand from the book on her own. She tries to communicate in Odia with her teacher. While taking down dictation, she sometimes makes spelling mistakes in difficult words.

COMPUTERS

She likes computer classes with Lalu Bhaiya which she started very recently. She is currently doing typing master in the class. Sometimes she is naughty in the class but concentrates when her teacher is teaching. She goes for computer class once in a week on Thursdays.

DANCE

Karishma likes to dance. She is the youngest girl among the rest of the children. She took time to learn to spin properly while dancing, but she tries to get on well with everyone. She remembers the dance steps in sequence and has learnt classical, folk and hip-hop dance. On 15th August she performed a folk dance and a classical dance on Janmashtami. She also performed a hip-hop dance on 31st December on New Year's Eve.

ART AND CRAFTS

Karishma is keen to learn new things. Her drawing is always neat and she tries to do it with perfection. Her drawings include all the things she can see by looking at the object or environment. She needs to put more effort into learning paper folding.

GAMES

Karishma enjoys playing games. She likes to do exercises before starting any game. She enjoys playing most games like football, base-kickball, etc. She celebrated her annual sports day on 9th of January and did lots of activities like jumping, loom race, etc. She also did Yoga on this day and enjoyed a lot

doing all the activities with her friends.

SHRAMDAN

In Shramdan, she is in group C. In the kitchen, she learns how to cut various vegetables in different ways. In toilet cleaning, she cleans the toilets, bathrooms, basin and sweeps the surroundings.

MUSIC

Karishma sings well and also tries to play the Harmonium. She likes to sing 'Sargam'. On every Sunday she goes for music class from 2:30 pm to 3:30 pm.
