

Karisma Krisani

SMILE GROUP

Date of Birth: 18th April 2013

Karisma Krisani

Karishma comes regularly to school. She is very shy girl. Whenever the didi asks her something, she looks here and there and does not respond. When asked a few times, only then will she answer and that too with difficulty. Her drawing and colourings are nice. She does work in groups like flower arranging, folding mattress and winding up after an activity. Even when didi doesn't tell her to, she does it properly. She has been toilet trained and also takes a bath by herself and changes clothes on her own. She sings songs but not loudly enough and other children are not able to hear her.

When she smiles, she always looks at her best friend- Shanti. Whenever someone asks her something, then she smiles and doesn't answer. But when asked her name, then she only tells her name and not anything else. She knows some names of animals like cat, (billi), elephant, rabbit and the domestic animals in Tribal (Deshiya) language. She also knows colours name like red, yellow, pink, orange, etc.
