

DEVANSH PANGI

DATE OF BIRTH-14 APRIL 2011

ANNUAL REPORT OF 2023-24 (SECOND TERM)

ANNUAL ATTENDANCE \_\_ DAYS OUT OF 366 DAYS

**INTRODUCTION:** I am Devansh Pangi, a student of AMVM (Auro-Mira Vidya Mandir). I find great joy in studying at this institution. I actively participate in all the activities and academics offered here.

**SCIENCE:** I am currently studying the 1<sup>st</sup> chapter in Science. While I have a liking for Science class, I struggle to grasp most of the concepts. Unfortunately, I find it challenging to

ask the teachers for clarification when I don't understand something. Consequently, I often listen passively during class. Although I have difficulty in creating proper diagrams, I make an effort to do my best. Recently, I've started to understand the concepts better, particularly in the chapter on Motion. However, I realize that improving my concentration during class is essential for my overall progress.

**ENGLISH:** I have a keen interest in studying English books. During group reading sessions, I make an effort to concentrate and listen attentively to the story being explained by the teacher. However, I sometimes find myself drifting off and thinking about other things instead of focusing on the class. Recently, we completed reading R.K. Narayan's book "Swaminathan and His Friends" and have commenced reading "Young Uncle in the Himalayas."

**HINDI:** I have an affinity for reading Hindi books. However, I often find myself distracted during class and struggle to read properly. Despite these challenges, I am committed to improving my reading skills, and I am working hard to do so. Additionally, I am actively trying to enhance my handwriting, which has improved compared to before. Although I occasionally find myself engaged in conversations with friends during class, I recognize the need to prioritize my studies and dedicate more time to focused learning.

**MATHS:** Mathematics is a subject I enjoy. Currently in the 6<sup>th</sup> class, I put in my best effort to excel. However, I sometimes get distracted easily in class and need to work on maintaining focus.

**SOCIAL SCIENCE:** I have completed the 8<sup>th</sup> book in Social Science and successfully passed the associated test.

Presently, I am studying from the 10<sup>th</sup>

textbook of

NIOS and am currently on the first chapter. I find the subject fascinating as it exposes me to numerous ancient stories and intriguing historical facts. While I enjoy the classes, I sometimes encounter difficulties during tests, particularly in problem-solving. Nonetheless, I

make every effort to perform to the best of my abilities. Additionally, I am aware that my handwriting needs improvement, and I am actively working towards enhancing it.

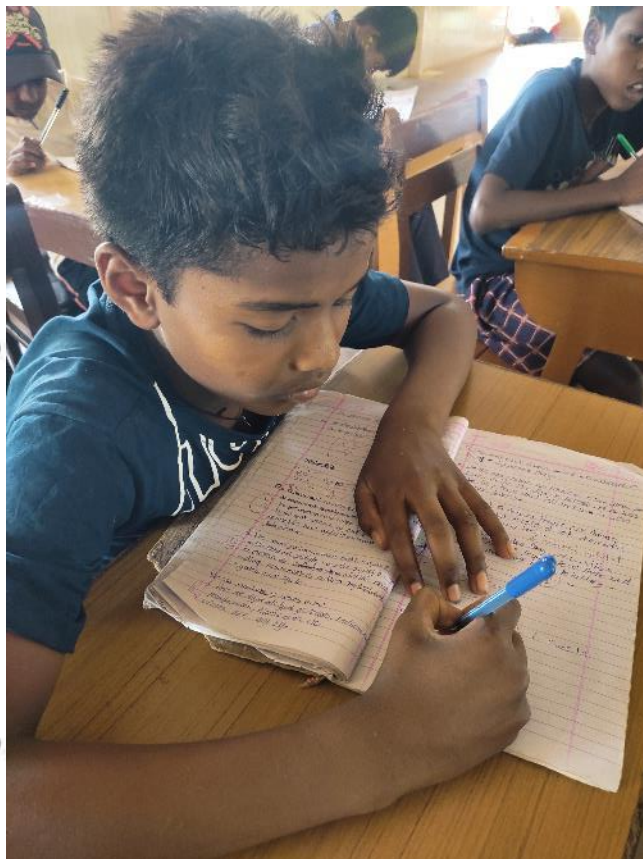

**ODIA:** During Odia class, I engage in activities such as reading stories and writing. I have a keen interest in reading Odia books and stories, although I acknowledge the need to improve my proficiency in the language.

**COMPUTER:** I am currently at Typing Master Level 4. Despite trying my best, my typing speed is not satisfactory due to lack of concentration. I am working on improving my focus to enhance my typing skills.

**ART:** I enjoy creating various art forms, particularly through paper folding or origami. I am dedicated to practicing drawing to refine my skills, and I derive pleasure from painting nature and objects that inspire me.

**DANCE:** I am making an effort to improve my dancing skills. Recently, I learned a dance for a program, specifically for Christmas, without the assistance of a teacher. My classmates from Progress and I taught ourselves the routine with the help of online resources. Although I struggled with some of the steps, I gave it my best during the performance. While I do enjoy dancing, I feel that I lack grace and interest in it. To improve, I understand the importance of becoming more focused and developing a genuine interest in dance.

**GAMES:** Football is my favourite game, and I especially enjoy being a goalkeeper. I enthusiastically participate in various games on the field. While I love playing, I feel reluctant to engage in exercises.

**SHRAMDAAN:** I actively participate in various activities during Shramdaan, including gardening, hostel cleaning, kitchen tasks, and toilet cleaning. I enjoy engaging in all these activities, although there are times when I feel lazy. Despite occasional reluctance, I still complete the tasks assigned to me.

**YOGASANA:** I actively participate in various types of asanas during yogasana sessions. Despite my efforts, I still struggle with flexibility, making some of the poses challenging for me. However, I am committed to improving my flexibility and mastering the asanas with practice and dedication.

**MEDITATION:** During satang sessions, I take pleasure in singing songs that I am familiar with. However, I must admit that I sometimes feel reluctant to learn new songs when the teacher introduces them. Nevertheless, I understand the importance of expanding my

repertoire and will make a conscious effort to overcome this reluctance and embrace learning new songs.

I recognize the need to improve my spelling skills and to enhance my reading speed. To address this, I am actively working on concentrating more during reading sessions to increase my pace. Additionally, I have memorized several poems to recite in front of Tara Didi and other guests. Furthermore, for Mother's Birthday celebration, I participated in a play and was assigned a small dialogue requiring me to speak slowly and with

emotion. Although I have a loud and clear voice, I struggled with pacing during the performance, speaking faster than required. Despite this, I remained confident throughout the presentation.

### **CELEBRATIONS:**

Throughout the year, I actively participated in various celebrations and events at school. On November 29<sup>th</sup>, we sang a heartfelt song. Then, on December 25<sup>th</sup>, the boys of Progress group, including myself, performed a dance for Christmas. Interestingly, we learned the routine independently, without any assistance from the teacher.

For New Year's Eve on December 31<sup>st</sup>, I joyously celebrated with all my friends. The festivities included dancing with friends and other campus members who joined in the fun. Another memorable event was Sports Day on February 3<sup>rd</sup>, during which I took part in an army drill performance.

Furthermore, on February 21<sup>st</sup>, we celebrated Basant Panchami with a theme centred around the Mother. I swiftly learned a song for the occasion, and our performance was well-received. Overall, I thoroughly enjoy participating in various festivals and celebrations throughout the year.

### **TRIP TO NORTH-EAST:**

My journey to the North-East began on the 24<sup>th</sup> of the month. Boarding the train from Koraput, I embarked on an adventure-filled excursion. Arriving in Howrah on the morning of the 25<sup>th</sup>, our exploration commenced.

Our first stop was the Botanical Garden, where we marvelled at the diverse array of plants and flowers. Witnessing the grandeur of the Great Banyan Tree left us in awe. Continuing our expedition, we visited the Indian Museum, where we encountered numerous historical artifacts.

The iconic Victoria Memorial was our next destination, where we admired the majestic statue of Queen Victoria. From there, we proceeded to Assam, where we paid homage at the revered Kamakhya Temple and visited the Gandhi Memorial and War Memorial.

Our journey then took us to the picturesque city of Shillong, where we

immersed ourselves in the beauty of Thankarank Park, Mawsmai Cave, Root Bridge, and Nohakhalikaya Falls. Additionally, we had the privilege of visiting the cleanest village in Asia.

Continuing our sojourn, we ventured to Arunachal Pradesh, where we stayed in a cosy hostel before embarking on a visit to the enchanting Tawang. There, we marvelled at the magnificence of the second-largest monastery and witnessed a captivating light and sound show. Our exploration extended to Rupa before returning to Assam.

In Assam, our accommodation at the Blue Moon Hotel provided respite as we prepared for an exhilarating adventure at Kaziranga National Park. Elephant riding afforded us an up-close encounter with the park's rich wildlife.

Our final leg of the journey led us to Sikkim, where we admired the serene monasteries, vibrant flower exhibitions, and traversed the scenic Nathula Pass. Exploring the bustling markets added a cultural dimension to our trip.

4Returning to Kolkata, we indulged in the wonders of Science City and embarked on a serene ferry ride, visiting various temples along the way. Our excursion concluded with a fun-filled day at Nicco

Park, where we relished in exciting games and activities.

Boarding the train for our return journey, we reminisced about the unforgettable experiences and cherished memories forged during our North-East adventure.

### **MUSIC CLASS:**

I thoroughly enjoy my music class, particularly when I get to play the flute. While I am still mastering the intricacies of playing, I have learned several songs. Though I may not yet

play the tunes flawlessly, I put in my best effort to improve with each practice session.
