Report for 2022-23 (first term)

English

In English I am doing the 5th class book of NEW BROADWAY. From this book, I read passages and stories and do the question and answers and show them to didi for checking. I understand and enjoy reading the stories. We study from this book with Bhavna didi. In this book we have completed 5 chapters and have also given tests after each chapter is completed.

In grammar, I am doing from the 4th class book. I have already learnt nouns, pronouns, adjectives, adverbs, sentences, etc. In the English class, we do group reading, grammar exercises, free reading. For free reading, we go to the library, and we pick up storybooks of our interest and read or sometimes we just read our issued books. I enjoy reading different books every time. I also love to read novels. I have read some of the novels like 'The nastiest girl', 'Oliver Twist', 'Pride and prejudice', 'Dracula', 'The little princess' and many more. I like to take dictations in the English class.

Social Science

We started studying Social Science from the 6th class book. Now we are doing the 7th class book of the NCERT syllabus. In History we have completed all the chapters. In Geography and Civics, some chapters are yet to be covered. History and Geography are easier for me to understand, when compared with Civics. Therefore I enjoyed studying History and also could do the question and answers easily. Many a times I scored good marks in the tests. I enjoy studying Geography too. When Pranjal bhैया teaches us Civics I can understand some of it.

Odia

We have Odia class on Wednesdays and Sundays. I love to take dictations during the class and I get most of the words right. I like the class but sometimes feel bored when they make us do the same thing again and again although I know that they do this so that we get more practise and learn it better. We are doing from the book of Prathama shreni i.e class 1.

Arts & Crafts

We have our art class on Fridays with Suparna didi and Brishti didi. In the art class, we make flowers by cutting and pasting papers or even with origami. Sometimes we also do painting. While doing painting, I focus on my work and try to make my paintings beautiful. Sometimes when my paper gets dirty while painting, I feel bad, but I learn a lesson for the next time and avoid repeating it.

Yogasana

We begin our mornings with doing some yogasanas (6:00 am- 6:30 am). I try to be regular for the class, but sometimes, I get late. During the class, we do various poses such as rabbit pose, moon pose, bhujangasan, etc. My favourite pose is the tree pose. Before we went on a trip to South India, I would go for yogasana regularly but after coming from the trip, I get late sometimes.

Shramdaan (Work Offering)

After yogasana, we go for our morning shramdan, and do from 6:45-7:30. I am regular for my shramdan, no matter what the weather is. In shramdan we do various activities such as gardening, hostel cleaning, school cleaning and toilet cleaning and kitchen work. My favourite shramdaan is school cleaning because we sweep the paths in the school campus or clean our own groups. By doing shramdan we keep our school clean. For shramdaan I am included in the 'E' group. I enjoy doing shramdaan with my friends in the group.

Music

We have our music class on Tuesdays from 11:30 am to 12:30 pm. We do music class with Anuradha didi. We learn vocal (classical singing) from her. I like the music class. We have learnt many 'Raags' and their 'Sargams' like (SRGMPDNS, SNDPMGRS etc) and we've also learnt some songs based on different raags. When didi teaches us songs or any sargams, I pay attention and learn quickly or when she gives us to write, I finish it quickly. Didi teaches us nicely, so we also learn it very quickly.

Computer

We do computer class with Lalu bhaiya. I enjoy this class a lot. My laptop number is 9. In the class we do typing from 'Typing master', and sometimes do painting when Bhaiya tells us to do. In typing we do key drill, word drill, paragraph drill, home row, etc.

Dance

We do our dance class with Gauri didi and Suparna didi. I like the dance class. When we are taught a new dance, I take time to learn it properly as I find it a bit difficult. But I listen to the didis during the class. We have learnt dances on various songs especially English songs, one of them is 'What do you mean'. We have learnt and performed many dances on different occasions. We performed a slow movement dance on the poem 'Krishna' by Sri Aurobindo on his birth anniversary i.e 15th August. This dance was taught by Denis Bhaiya who had come for a small trip to our school. He also taught us Dura dance. I enjoyed his classes a lot.

Games

I go for games regularly. I like to play games. My favourite game is volleyball. I like to play different games with my friends. In games, I am in 'F' group. We play various games like football, volleyball, rani kabaddi, basketball, dodgeball, base-kick and many other games. Before playing we do exercises and running.

Hindi

Now I am doing from the 6th class book of 'Vasant'. In grammar, I am doing from the 5th book. In grammar we have learnt nouns, pronouns, adjectives, etc. In 'Vasant', I have completed 12 chapters and 5 more chapters are remaining. Before doing the question and answers, we understand the content from didi. I give test on every chapter once it is covered. Sometimes I find it difficult while giving the tests. During the class, we do group reading, storytelling, dictation and other activities.

Once a week, we go to the library and read books of our own choices. During the class, I love taking dictations the most. On 5th July (school's birthday) our group had performed two Hindi plays. In both the plays I had played the role of a king. I had learnt the dialogues quite easily and fast and enjoyed performing the plays.

Science

In science we are doing from the 7th class now. We have covered some of the topics such as mirror, electricity, shadow, light, acid-base and reflection. We are doing the chapter 'motion and speed' now. We learnt some chapters by doing experiments. In experiments we have made kaleidoscope, periscope, electroscope. We proved that light travels in a straight line, mirror image, made hydrogen gas, and saw small things by microscope. When didi teaches us something, sometimes I get distracted by seeing others or listening to some birds chirping. When didi or bhaiya ask me questions, I always answer the question and when they give homework, I do them regularly. I find all homework very easy. Once we had done an experiment in which sulfuric acid and hydrochloric acid burnt the leaf and a piece of cloth which was very interesting. When we give tests at the end of the chapters, sometimes I am unable to understand the questions and therefore, am unable to solve them.

Mathematics

In Maths, I am doing the 6th class book of NCERT. I have completed many chapters such as integers, fractions, decimals, simplifications, circles, etc. Now I am doing the chapter 'Concept of perimeter and area'. I enjoy doing maths. I do maths two hours a day, in the morning hour, I study with Bikanti didi and in the evening class I study with Jagat bhaiya. The most difficult chapter for me was of Linear equation in one variable and the easiest was integers. I faced a little difficulty while giving the test of the chapter of linear equation.

Trip to Pondicherry

We went on a trip to South India on 17th August. Before going to Pondicherry we went to Simhachalam, Kanyakumari, Madurai and Rameshwaram. We saw Meenakshi temple, Hanuman temple, Vishnu temple, Ganesh temple, Vivekananda rock memorial, Simhachalam temple, Vivekananda exhibition, etc. It was a trip of 15 days and I enjoyed the trip very much.

Out of all the places, to which we went, I liked Pondicherry the most. We went to Paradise beach in Pondicherry and swam there and tasted the salty water for the first time- it was very salty. After swimming we played with the crabs, collected shells and played volleyball with something like rubber, which the guide had given us. I enjoyed a lot on the beach and wish to go there again.
