Sonali Gouda

DOB- 30th September'19

Attendance- 32 out of 183 days

Report for 2023-24 (First Term)

INTRODUCTION

Sonali is a sweet little girl who strives to be regular at school. She enjoys playing at school all the time and prefers staying within her own group. She values neatness and cleanliness at school. When she returns from home, she likes having breakfast with her brother in the hostel.

CHANTING AND SINGING

During circle time, Sonali tries to sit properly and remain quiet. When others are chanting chants, she attempts to join in. She makes an effort to learn the chantings properly and enjoys singing songs loudly and clearly. Although she has learned many songs, she knows only half of them. She pays attention and tries to mimic the actions of others.

PROJECTS

In class, Sonali makes an effort to sit properly and concentrate. She tries to convey what the teachers are saying. She has covered topics such as colours, vegetables, and fruits. She is still confused about colours and takes time to learn the names of vegetables and fruits. Sonali enjoys colouring pictures of vegetables and fruits.

MATHEMATICS

She counts objects but sometimes gets distracted when others are counting. She relies on teacher guidance to count accurately. She enjoys creating designs using geometry and arranging objects.

CELEBRATIONS AND FESTIVALS

Sonali enjoys attending programmes, particularly watching dances and dramas performed by other groups. When she enters the stage, she tends to be shy and nervous.
