DHATRI BISHOI

DOB- 18th February'11

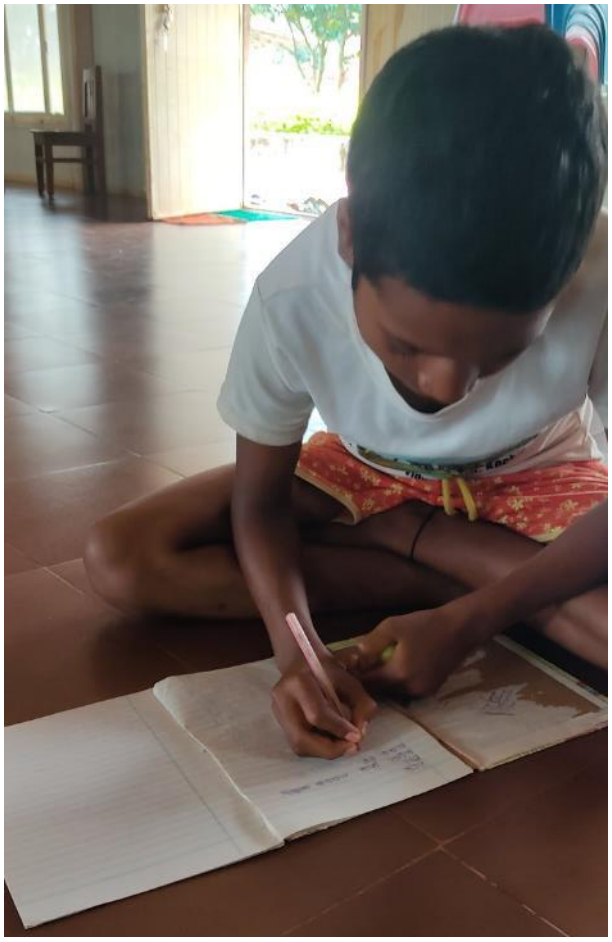
Attendance- 183 out of 183

Report for 2023-24 (First Term)

ENGLISH

I enjoy my English classes with Kamli didi, Bikanti didi, Bina didi, and Sangita didi. I am currently studying in the 4th grade, and I engage in various activities during these classes.

In English, I work on book exercises, grammar, free reading, and group reading. Grammar class is something I particularly like because it helps me improve my speaking skills and learn new words from the grammar book. Free reading is one of my favourite activities, especially when I get to read fairy tales. I eagerly await the days we have free reading sessions. Group reading is another aspect of English class that I enjoy. We have recently read "The BFG" in our group reading sessions.

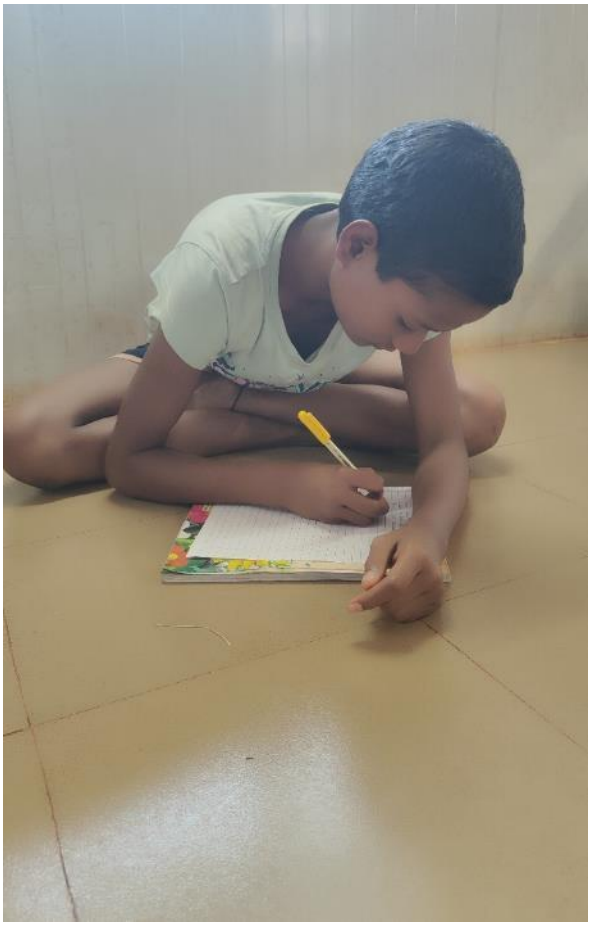


Sangita didi teaches us many aspects of grammar in our class. I have also memorized poems such as "A Tree." I am punctual and make sure to come to class on time. Whenever there's something I don't understand, I approach didi to seek clarification.

In English class, I primarily focus on improving my language skills. During our classes, I also memorized a dialogue for the 15th August program and was able to memorize it quickly.

HINDI

Dhatri is presently studying the 3rd-grade "Abhyas Pustak." She consistently seeks to understand the chapters but would benefit from attempting independent understanding. She encounters some difficulties when answering questions, though she perseveres in finding the correct answers. For more complex questions, she approaches the teacher for guidance. She shows a particular interest in the 4th-grade grammar book, seeking assistance from the teacher to comprehend the chapters and demonstrating determination in solving the questions. She participates in weekly group reading sessions, where she sometimes takes time to pronounce the correct words, emphasizing improvement in her reading abilities. After finishing a story, she takes on dictation exercises, with her efforts dedicated to enhancing her spelling and



handwriting. On the 5th of July, Dhatri confidently portrayed the role of a "Soldier" in the play "Andher Nagri Chopat Raja." She demonstrated loud and clear dialogue delivery despite initial nervousness on stage. She also exhibited her poetic skills, writing a poem for Raksha Bandhan and showcasing her love for singing. Increased attentiveness in class would significantly benefit her performance.

MATHS

Dhatri is a bright student who occasionally gets distracted in class. She actively engages in her studies, frequently asking questions to gain a better understanding of the material being taught. Currently in the 5th-grade book, she enjoys the content and actively participates. She is currently working on multiplication and division of fractions, which she finds a bit challenging. Dhatri frequently reviews her notebook and is quite talkative, often asking many questions.

SCIENCE

She is very excited and cannot sit in one place for long, but she has a lot of confidence. She actively participates in class but is easily distracted if not given attention. She enjoys doing diagrams related to science, such as those of a bird, an egg, the cockroach life cycle, the butterfly life cycle, and the frog life cycle. She is enthusiastic about the practical aspects of science, like observing stomata on different leaves, and it was the first time for her to look at things under a microscope. She scores well in

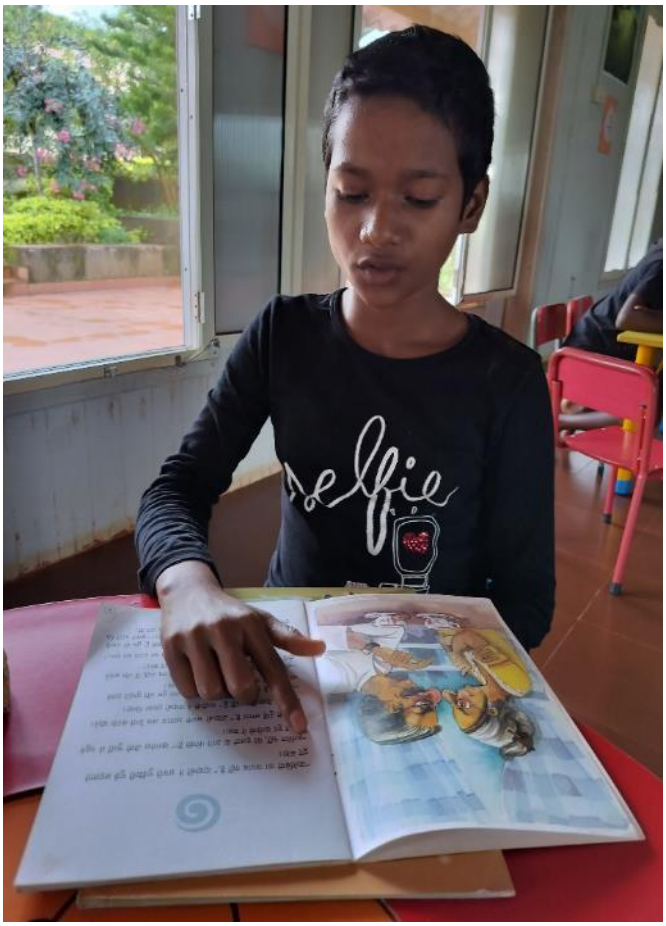
tests but needs to improve her handwriting. Concepts need to be repeated for her to learn effectively, and she needs to pay more attention and be focused in class.

SOCIAL SCIENCE

Since Dhatri has joined the school recently, she is facing some difficulties while studying. She is trying her best to catch up with the other students in the class. She listens carefully to whatever the teachers are teaching and sometimes asks her doubts on the topic. She has to improve her comprehension skill in order to get the correct answers. She can do with more improvement in her attention span and more interaction in the class. She takes time to understand a concept and to get familiar with the new words.

ODIA

Dhatri is punctual for class and needs improvement in speaking Odia. She can read properly as she is very clear with the alphabets (Byanjana Barna) and the matras. Dhatri can write words correctly with the correct matras and can form sentences. She takes interest in listening to stories and understands them quite well.



COMPUTER

ART

Dhatri likes attending art class with Shampa, Shamika, and

Brishti didis. She enjoys drawing and creating hanging art. She pays close attention to the didis and has even made a small notebook with their help. Dhatri prefers drawing nature-related subjects and participates in art class with great enthusiasm.

DANCE

I have the privilege of attending dance class with Gauri didi, Suparna didi, and Brishti didi, and I thoroughly enjoy the experience. Dance class is a place where I get to learn various dance steps and techniques, and that's why I like it so much.

In our dance class, we explore a wide range of dance styles and forms. I particularly have a fondness for Kathak, which is my favourite. Whenever I find it challenging to perform certain dance steps, the didis are always there to teach me and help me improve.

Listening to the instructions from the didis is crucial in our dance class. If I don't pay attention and listen carefully, it becomes difficult for me to follow along and execute the dance moves properly.

Our dance class is quite diverse, and we get to learn dances like Fog dance, Kathak, Odissi, and many more. We engage our entire bodies in the dance class, ensuring a comprehensive and enjoyable learning experience. Additionally, the didis incorporate exercises to prepare our bodies for the physical demands of dance.

I find my dance classes to be both enriching and enjoyable, and I look forward to continuing my journey in the world of dance.

MUSIC

Dhatri is progressing in her musical journey and is beginning to participate actively in the class. With occasional reminders, she can identify notes, pitch, and rhythm. Dhatri is attentive to demonstrations and listens to notations but often asks for repetitions to boost her confidence. She can play the seven notes but needs more practice to build her confidence.

GAMES

Dhatri enjoys playing basketball and is learning to dribble and shoot the ball into the basket. She is also proficient in football and is very quick when playing frisbee. Dhatri believes in doing warm-up exercises before starting the games and also enjoys running. She tries to be punctual and sometimes arrives on the field on time.

SHRAMDAAN

Dhatri takes an interest in cutting vegetables according to the teacher's instructions, exploring different cutting techniques. She ensures her hands are clean and her nails are trimmed before participating in kitchen duties for breakfast and lunch.

CELEBRATIONS

20th June Rath Yatra

On this day, I enjoyed seeing the funny dances of the children and also danced a lot myself with my friends. I was feeling a bit shy as there were many villagers too who were there to witness our way of celebrating Rath Yatra.

5th July School's birthday

In the drama of 'Andher Nagari,' which we performed on the school's birthday, I had taken the role of a king's soldier and had to drag the culprit inside the court of the king. I had very few dialogues to remember, so I had no difficulty in remembering them.

15th August Independence Day

I was given the role of a farmer in the great play about the freedom struggle. I said my dialogues quite confidently and without any hesitation. At first, I was confused

about when my turn to say the dialogue would come, but later on, every scene became clear.

30th August Raksha Bandhan

Taking advantage of this occasion, I tied Rakhi to my youngest brother, Kiran, who was feeling very excited and happy to see me tie a Rakhi to him and feed him. I gave him my share of the sweet too.

7th September Janmashtami

On Janmashtami, I enjoyed singing the song "Tum Prem Ho Tum Preet Ho," taught to us by our teachers. I confidently sang the song in front of the audience.

19th September Ganesh Chaturthi

My favourite festival is Ganesh Chaturthi as I get to see a lot of dances and dramas related to Lord Ganesha. I enjoyed watching the other children's performances, but I liked the dance performed by the Perseverance girls. I performed the dance very well on the stage and was very confident.
