

# Laxman Krisani

**Date of Birth-August 07, 2015**

**Report for 2022-23 (first term)**

## *English*

Laxman is able to understand the stories narrated to him. Normally he is very active during the class though sometimes he gets

distracted and feels sleepy during the class. He is a good singer and loves to sing often, though he finds it difficult to catch some words. He takes time to learn his lessons and learning the poem, “God” was a little stressful for him because he found it difficult to pronounce some words. But gradually he learnt the poem. He loves to take part in plays. On July 5, he played the character of Papa Bear in “Goldilocks”. On Ganesh Chaturthi, he was given the character of Shiva. He faced difficulty in remembering the dialogues and it took him many days to memorize them. He found some words like extensive, immortality, etc difficult to pronounce. During the performance he had forgotten one line. But he really did his best.

## *Mathematics*

He is an intelligent boy and sits quietly in the class. He knows both backward and forward counting. He sometimes gets confused about what comes before 20, 30, 40, 50, 60, 70, 80 and 90. He does skip counting of 2 and 5 very well. He is very attentive

and active in the class. He loved playing with the Rangometry kit. He made different designs and patterns. He was able to make 3 Dimensional houses by using different shapes. He was able to arrange the shapes in descending order. He played and made different things with the jodo cubes. He enjoyed fixing and joining these cubes. He has also started doing simple word problems.

## *Projects*

### *Colours*

He pays attention in the class and listens carefully. Whenever they ask him questions, he answers them properly. But when his attention span wavers, he gets distracted and starts talking and playing with his friends. He cannot speak English clearly, but he tries his best. When we taught them a dance then he was not interested in learning it. In a play performed on the occasion of Janmashtami, he played the role of Sudama very nicely and realistically. They also sang a song on Sri Aurobindo on August 15 and Laxman was loud and clear.

### *Family*

His second topic in the project was “My Family”. He made drawings of his family and was able to recognize all of them. He tried to give all the answers in English. He has learnt to identify his family in English like mummy, papa, sister and brother. Lots of questions were asked by the teachers and he answered them happily. But he was a little confused in differentiating between younger and elder.

## Arts

He is very interested in doing all the activities in the art class. His drawing is very good and he has the capability of doing all the work. He is interested in doing all the activities, for example paper folding. His drawings are neat and clean and he never spreads colour while colouring although he is slow. While

doing the activities he painted a blue bird and two green colour leaves. He drew the pictures of a ladybird, snail, double boat, house, nuts and leaves. He

enjoyed making the ladybird and the yellow flower which he hung on the ceiling.

## Games

Laxman is a very good and cheerful boy. He plays all the games happily. He is always interested in learning new games. He never fights with anybody. He has improved his speed and thinking power a little. He comes

regularly for the games session though he is late sometimes. Sometimes during games he starts singing or playing on his own.

*Celebration*
