Srishti Pukia

DOB- 18th February'14

Attendance- 183 out of 183 days

Report for 2023-24 (First Term)

Maths

Srishti is very fond of doing maths. She is very focused in the class but gets all mixed up by herself. She needs repetition for grasping the concepts. She knows how to add and subtract but has difficulties in multiplication and division, because she is not fluent with the tables (2 to 10). She liked doing the abacus very much, which was meant to increase her mental calculation. It has helped her a lot and has shown improvement in her calculations. She enjoyed doing an activity done in measurement, measuring many things, including her height, tile, group length, and her notebook. She is able to know the difference between units and can convert them into different units. She has difficulties in adding different units. She knows how to use the abacus and can show numbers up to 3 digits.

Projects-

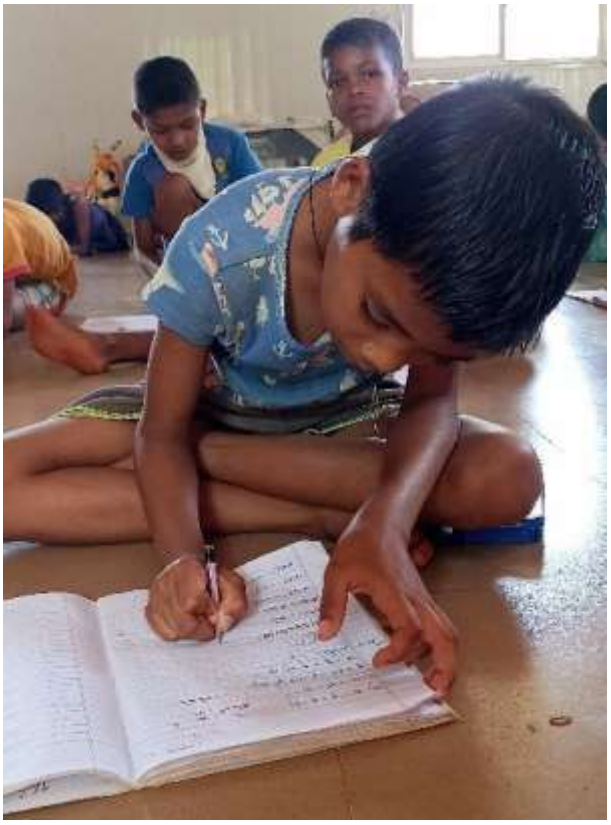
Birds

In this topic she liked to draw the pictures of the birds and she took the help of her friend satrupa to make it. In the class she learnt many things about the birds they are how do the birds fly and hoe do they make their nest. In the class when she gets to read the books then she is not able to read the big words and cannot understand the meaning. Among all the birds she liked woodpecker the most because it is very pretty bird. When she had gone for a walk in the forest and village then she saw many types of birds like kingfisher, drongo, crane, mynah, bulbul and etc.

Occupation

Srishti wants to become a dancer when she grows up because she loves to dance, and she always dances when she is free. She had made a drawing of a dancer, and it was very beautiful. She liked to do this topic because she learnt many things about occupations and the works of the people in her surroundings. She was able to understand what was taught in the class and could answer the questions asked to her.

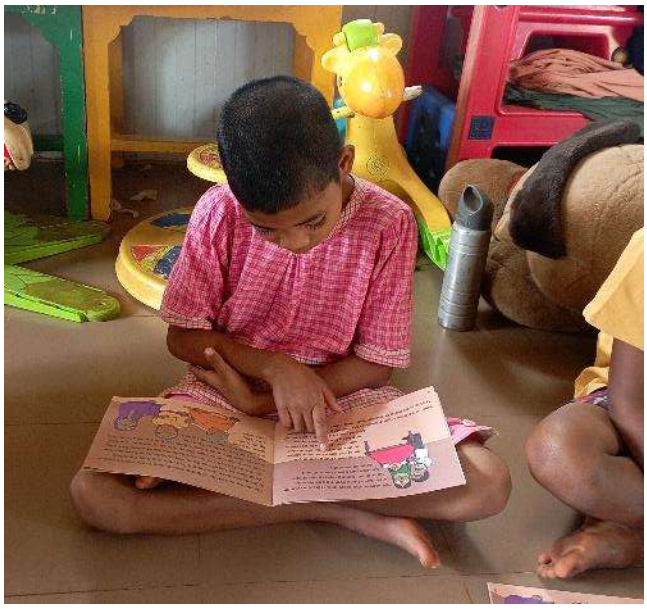
Hindi



Srishti is obedient and enjoys reading Hindi moral stories. She reads Amar Chitra Katha and has improved her reading. Her handwriting is better, and she makes few dictation mistakes. She has learnt basic grammar and enjoys Varna Vichhed.

English

Srishti is an energetic student who particularly enjoys self-reading. She boasts a good reading speed and the ability to read fluently, seeking assistance from the teacher when encountering unfamiliar words. Her handwriting is neat and clean, and she practices it daily. She is highly engaged in class activities and requires improvement in dictation.



Srishti has a strong interest in participating in short plays and quickly memorizes the lines. She loves mimicking the English language spoken in different dialects and is very interested in watching English movies, with "Mary Poppins" being one of her favourites. She sings beautifully with proper pronunciation.

Odia

Srishti is a cute girl who enjoys her Odia class. She is a quick learner and always approaches learning with a smile. While she knows the names of flowers, animals, and body parts, she speaks very little but continues to make an effort to improve.

Srishti is motivated to participate in all activities, listens attentively to stories, and sings well.

Arts and Crafts

Srishti's cheerful and talkative nature is prominent during art class. She engages in craftwork, paying attention to both oil pastels and shading. She mainly enjoys nature drawings, maintains good posture, and actively interacts with peers while working.

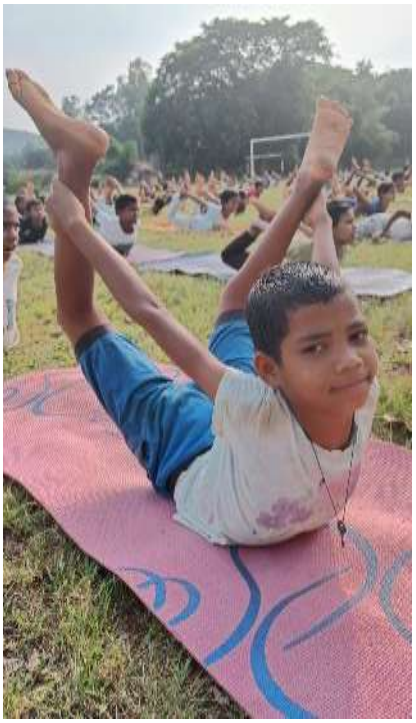
Puzzles

Srishti enjoys working on puzzles, particularly the easier ones. When faced with larger puzzles, she prefers to work on them with a partner, finding that the collaboration makes it more manageable. She

can successfully complete a 500-pieces puzzle when working with a friend. Srishti exhibits strong concentration and takes pleasure in solving puzzles alongside her friends.

Games and Sports

Srishti is very curious to learn all sports. She likes to do gymnastics and yoga the most. Her stamina has increased by running very fast and she can do wheel poses, like dhanura asana, swan and split. She has also participated in



several fun games. She is in the nitrogen group and likes to play with the team. She responds to their teacher in their games period.
