

Jayanti Krisani

DOB-07-Aug-2015

Attendance-177 days out of 182 days

Report for 2024-25 (Second term)

Introduction

My name is Jayanti Krisani. I study at Auro-Mira Vidya Mandir. I am 12 years old and I am doing the 6th grade books. My home is near my hostel. I live in a beautiful village surrounded by nature, and I love my school very much. My favourite subjects are Maths and Science. My best friends at school are Satrupa and Archita. I enjoy my life with these two girls. I have two brothers. Red, black, white, and green are my favourite colours. On Tuesday afternoons, I go home with my friends. We play hide and seek for some time and then go to watch a movie. After the movie, I help my mother cook food. On Wednesday morning, I return to school again.

Science

I like science class, but the chapter on speed, motion, and time was difficult for me because there were a lot of calculations. I cannot do the calculations quickly because I don't understand the concept completely, so I ask Didi to explain it again.

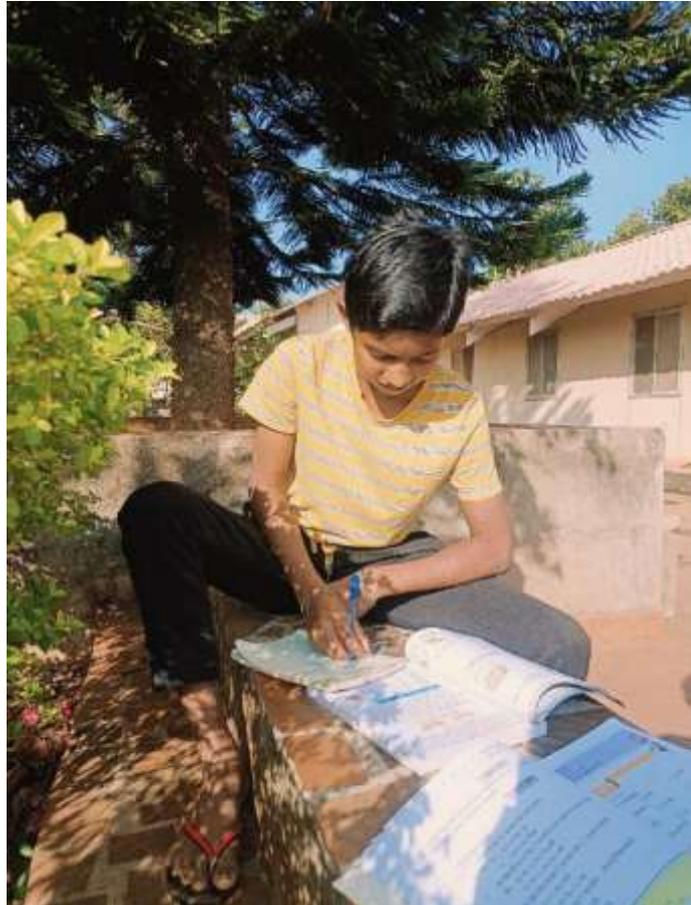

Social Science

I like social science class because I find it very interesting, especially the chapter on "Inside Our Earth." Before this chapter, I completed a chapter called "Gravitation of Earth." For the Mother's birthday, I practised a play called "Shadow," where I took the role of the bird shadow. I

practised the play for at least a month. On the last day, I was feeling shy, but I knew I had to perform. When I went on stage, my shyness went away, and I performed the play well.

Hindi

I study the 6th book of *Muskan*. The stories in it are very interesting and useful, and I like them a lot. I have finished 5 chapters so far. The most interesting story was the one about Bhagat Singh, which was very emotional for me. Before this chapter, I had completed the 5th book of *Gunjan*, which also had nice stories, and the questions and answers were easy for me. When I gave the test, my result was 26.5/30 because I made mistakes in my spellings and a question. Didi gave me dictation, and 2 or 3 words were wrong. I got 23/25. Most of the time, when I do questions or give tests, my spelling mistakes are the reason my marks are reduced. Didi always tells me to correct my spellings. In grammar, I am also doing the 6th chapter of *Me and My Grammar*. I am currently doing Chapter 9 on Gender. My favourite chapter is *Joining (Sandi)*. My grammar is better than my book work.

Art class

In art class, I like to do painting, crafts, colouring, and drawing. I have made a hanging lotus in art class. I also made a snowman with my friends. I coloured the snowman yellow. I enjoy doodling with my teacher, and I like to draw and colour it. I did warm and cool colours by drawing a tree. Inside and outside the tree, I made many boxes. I coloured the tree with warm colours and the outside with cool colours, and it looked very nice. I love doing warm and cool colour paintings, especially using oil pastels. I really enjoy it.

Maths

I am very interested in doing Maths. I am studying the 6th grade Maths book. Currently, I am working on the Decimals chapter, which is very easy for me. Before this, I finished two chapters in five days. The Simplification chapter was a little difficult for me, especially the questions inside the brackets. Before the Decimals chapter, I completed the Integers chapter. This chapter was also a little difficult for me when doing the questions. While working on the questions and answers, I finished one whole notebook and started another one. When I gave the test, my result was 18/25. All my answers were correct, but I made mistakes with my signs, so my marks were lower. When I gave the

retest, I got 21/25, and I was happy with my marks.

English

I enjoy doing the English class as I like reading books and doing grammar. While reading I am able to read and understand the meanings and the story. Whenever I am unable to understand any term, I sometimes refer to the dictionary or sometimes I ask the didi's. I like reading the Narnia chronicles and am currently reading one of its parts. Grammar is another interesting topic which I like doing very much. We've been taught tenses, nouns, proper nouns, preposition etc. This class takes place before lunch break, and I feel hungry while doing the class. My pronunciation has improved and so has my writing. I can do better if I put in a bit more hard work.

Computer

In computer class, I type whatever Bhaiya tells me. I have computer class from 2:30 to 3:30 p.m. on Sundays. Sometimes, Bhaiya asks me to do painting on the computer. I make pictures of nature, the Indian flag, or colour-mixing pictures. My favourite activities in the computer class are typing and painting.

Dance

In dance class, Didi teaches me Bharatanatyam, and sometimes she teaches me modern dance. Before this, I had done many dances, and the steps in them were very easy for me to follow. I did a dance on Lord Shiva, which was a bit difficult, so I took two months to do it well. My dance class is on Wednesday with Suparna Didi.

Gardening

In gardening, I learn how to take care of plants and flowers. Bhaiya teaches me that I should not pluck flowers, fruits, leaves, etc. I water the plants and learn how to grow them and take care of them. I also remove weeds from the fields and water the plants in the garden. I enjoy doing this.

Games

In games, I like to play football and sometimes basketball. My favourite game is football. The games I play include football, basketball, Frisbee, etc. Before playing, I do running and exercise well, which helps me avoid any strain or pain in my body while playing.

Shramdan

I do my Shramdan at 6:30 a.m. In Shramdan, I have many activities to clean, and I do one activity each day. I continue this Shramdan every day. My favourite activities are cleaning the filter, cleaning the stairs, and wiping common areas. I become very happy when these activities come quickly. I like to do Shramdan, but when the rainy season comes, I prefer to only clean the stairs and nothing else.

Yoga

I like to do yoga asanas. I have learnt the names of Surya Namaskar. Some asanas, like Paschimottanasana, Halasana, and Bhujangasana, are difficult for me to do. Other asanas, like Parvatasana and Vrikshasana, are easier for me to do. I like to do yoga asanas in the morning at 6:00 a.m.

CELEBRATIONS

Bhaiyas birthday

On Bhaiya's birthday, I celebrated it as a joyful day because I enjoyed it so much. I sang a short song with my friends, which was taught by my school principal. I was feeling scared, but I still sang the song.

Christmas

On Christmas day, I sang a song for Jesus called "Paida Hua." I was able to learn the song quickly because after Didi taught me, I practised it every day while walking on the road.

Sports day

On Sports Day, I performed on a unicycle in front of Tara Didi. I was feeling very scared because there were so many people in the crowd, and my unicycle seat was broken. Despite this, I managed to do it well. While practising, I couldn't lift the pedals, but on the day of the performance, I did it very well. I also performed a dance on the "Dashavatar." I enjoyed performing the Dashavatar, and I didn't feel nervous; I did it nicely.

Holi

I enjoyed playing Holi with natural colours that we had made ourselves and also played with mud. The pot breaking event that was organized was a new experience for me. I played Holi with all my friends, and with the senior and the junior children. It was a very enjoyable moment for me. Mud bath that took place after the playing of Holi was a rather funny and exciting moment in my life.

Trip

On 29th October at 3:30 PM, I set out on my journey. We first travelled to Koraput, and then I boarded the train to Bhubaneswar. In Bhubaneswar, I did not like the food. However, I enjoyed visiting the Bhitarkanika Sanctuary, where I learnt about different types of crocodiles.

I also liked visiting Puri, which is a sacred place. I enjoyed watching the flag-changing ceremony at the top of the temple and going inside and coming out of the temple. While in Odisha, I visited Puri Beach and had a great time playing there. My journey then took me to Bihar, where I enjoyed hearing the story of Dashrath Manjhi. I walked on the path he made by cutting through a large mountain to create a road. After that, I visited Rajgir, which was also a beautiful place. I enjoyed sitting in the metro and visiting Sarnath. In Jhansi, I liked everything, especially the food, which was very delicious. In the evening, I went to see a light and sound show, and it was truly amazing. The next morning, my friends and I performed a havan, and after completing it, I visited the Bhul-Bhulaya. It was a lot of fun, even though I got lost there! On the last day, I visited Amar Ujala Press and saw how newspapers are printed every day. After that, I returned to Kechla.
