

Raghav Deulia

DOB-10-Mar-2010

Attendance-179 days out of 182 days

Report for 2024-25 (Second term)

Introduction

My name is Raghav Deulia. I am 14 years old and study at Auro-Mira Vidya Mandir. I like studying at school and stay in the hostel. I am in the tenth standard and will appear for my exams this October. My subjects are Painting, English, Hindi, Data Entry Operations, and Social Science.

My hobby is playing football. I study very hard to do better in my studies. I am a very responsible boy and keep my surroundings clean.

Yoga

In yoga, I am on time every day. I don't attend yoga during my kitchen turn. I am not very flexible, but I try my best. Sometimes, I don't listen to the teacher because I feel moody. I am unable to do many *asanas* because I sometimes feel lazy.

I do yoga from 6:00 to 6:30.

Shramdan

During *Shramdan*, I help with hostel cleaning, girls' hostel cleaning, school cleaning, toilet cleaning, gardening, and kitchen work. I like doing all the tasks and consider myself responsible. I also help others.

Mostly, I like doing school cleaning because the work gets finished quickly. I do *Shramdan* from 6:30 to 7:30 a.m.

Painting

In Painting, I do drawing. I have learnt how to draw easily. When didi teaches, I listen carefully and pay attention.

I have completed several chapters, and three more are left. I have cleared all six chapters and will start the next ones soon. When I get bored with the coursework, I

practise drawing. With didi, I have also finished my practical file for the exam, which I have to take this year. Additionally, I work on practical drawings from my 10th class painting book. So far, I have completed six chapters.

I also have an art class at 2:30 on Saturdays. In art class, I have made hanging decorations for my group, a warm and cool colour drawing, and a tree collage. I finish all my work on time, and my drawings are neat and clean.

English

In English class, I learnt a song for Mother's birthday—*Aadhyashakti Maa Mira*.

I finished the boths book. I studied with an MIS student for 4 days. My teacher's name was Myra didi. With her, I studied *The Parrot Who Wouldn't Talk* and *The Return of the Tiger*. I understood all the chapters.

I am preparing for my exam by revising the chapters and doing question-answer exercises. In grammar, I have learnt notice writing, message writing, active and passive voice, and direct and indirect speech. However, I am still not completely clear on active and passive voice.

I can understand the chapters, but sometimes I don't know the meaning of certain words. When that happens, I ask didi to clear my doubts. I can understand the stories and poems and explain them in my own words.

Hindi

In Hindi, I am studying the 10th-class book. I have finished one book and am giving tests after every three chapters. After completing these tests, I will take a full-book test before starting the second book.

For free reading, I go to the library and read *Amar Chitra Katha*. I enjoy free reading and also like group reading.

In grammar, I am working on my 10th-class book. I find grammar difficult to understand, but I am trying my best. I prefer working on the textbook because it is easier for me to understand.

During group discussions, I pay attention, and when the teacher explains, I can understand the chapters. I attend my classes on time and enjoy them.

Data Entry Operations

I attend my Data Entry class on time. I am studying from the 10th-class book. During group discussions, I pay attention, and when the teacher explains, I understand the concepts.

When I am given homework, I complete it and submit it. In tests, I sometimes score well, but other times I don't because I struggle to remember certain things. In the

evenings, I sometimes feel sleepy.

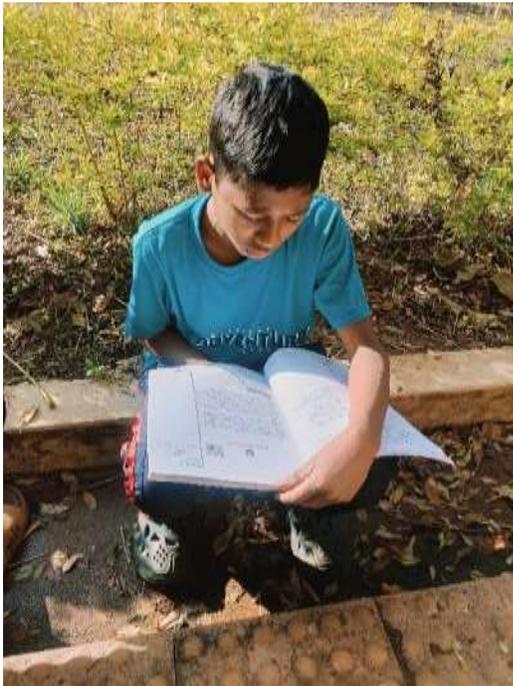

I enjoy my Data Entry class. In the 2:30 p.m. evening class, I practise typing with *Typing Master*. I enjoy it because my typing speed is improving.

Social Science

In Social Science, I have completed the 10th-class book and taken tests. I have also completed the introduction to Social Science, passed the test, and moved on to the next chapter.

Whenever I get homework, I complete it and submit it on time. If I am asked to read a specific portion before class, I always read it in advance.

I pay attention during group discussions and when *Didi* teaches the chapter, which helps me understand the concepts better.

I attend my classes on time and enjoy them. I find History and Geography easier to understand, but Civics is a bit challenging for me. However, I receive simplified notes, which make learning easier. I believe I will perform well in my exams.

Dance

I used to attend dance class once a week on Fridays. When I was taught the steps, I could learn them easily, but some difficult steps were a bit confusing for me.

Nowadays, I focus on self-study as my exams are approaching.

Sports

In sports, I play different games like football, basketball, and volleyball. I like playing football the most because it is my favourite game, and I am good at defence.

Before games, I always do my exercises and running. I enjoy exercising daily, but I need to improve my running to build stamina. I also like playing volleyball. Since I am short in height, I enjoy being the net keeper and playing at the corner of the net. After the game, I take a bath.

Self-Study

After taking a bath, when I feel refreshed, I do self-study in the computer lab. Earlier, I used to attend *Satsang*, but since my exams are near, I have stopped going.

During self-study, I complete my homework, practicals, and question-answers. I make sure not to waste my time and focus on my studies.

Celebrations

On Republic Day, my school friends hoisted the flag in the morning. On Sports Day,

I performed a martial drill with my friends. While doing the drill, I felt very nervous, but I did well. During practise, I trained from eight-thirty to

ten-thirty, sometimes until twelve-thirty.

On Sports Day, I also participated in *Dasa Avatar*, where I took on various roles such as a tree, demon, warrior, and horse. I enjoyed performing, but I have stage fear. Still, I did my best to act well.

On the Mother's Day, I sang a song taught in English class (*Aadhyashakti Maa Mira*). I was very nervous while singing and mistakenly sang one stanza incorrectly, but my friends covered for me and sang the song correctly, so it went well.

Trip

I went on a trip on 29th October, travelling by train from Koraput to Bhubaneswar. I reached Bhubaneswar between 8 and 9 AM. After taking a bath, I had breakfast and then visited Kedar Gauri and Lingaraj temples. I saw many beautiful statues of gods and goddesses. After that, I returned to

the school for lunch and later visited a science museum, where I saw many interesting experiments. A sir demonstrated science experiments, and I really liked his explanation because he not only described

the concepts but also showed the experiments practically. I spent the night in Bhubaneswar.

The next morning, I went to Nandan Kanan Zoo, where I saw many animals and had a great time observing hippos, deer, ostriches, hyenas, and more. In the evening, I visited the Udayagiri and Khandagiri caves, and I loved the way they were carved.

On 1st November, I visited Dhaulagiri, where I saw many Buddha statues. Then, I travelled to Konark, where I admired the sculptures of Gods and Goddesses before spending some time on the

beach. Later, I visited the Jagannath Temple.

The next morning, I visited the Amarnath and Chilika temples. Later, I travelled to Bhitarkanika to see crocodiles. I took a boat ride and saw many

crocodiles of different sizes, some swimming and others basking in the sun.

On 4th November, I visited Simlipal, where I travelled in a van and saw many beautiful waterfalls. Before that, a sir told us about a friendly tiger named Khairi, after whom the Khairi River is named.

On 5th November, I had fun at Purbi Beach, then visited the Panchalingeswar Temple and a Krishna temple, where I had my dinner.

After three days, I travelled to Lucknow by train. On Children's Day, I visited a park and had lots of fun. I also went to a Bhulbhulaiya and explored some castles. Every morning, before taking a bath, I used to jog in the stadium. I also visited the Ayodhya Temple, where I saw a beautiful statue of the Lord. Although the place was very crowded, I had no

problem visiting it.

After three days, I travelled to Jhansi by train and reached the station at 12:00 PM. Neha Didi came to receive us, and we went to her home, where we kept our luggage and had

dinner before going to sleep. The next morning, after breakfast, I visited a Raja's

castle, which was very beautiful. After lunch, I rested in the room before heading to Jhansi Fort in the evening to watch the light and sound show.

The next day, I went to see the Ganga Aarti. It was so crowded that I could barely see the ceremony. Later, I visited a science museum, where I watched some documentaries about planets, which were very interesting. In the

evening, I visited the Amar Ujala news company, where I was thrilled to see the newspaper printing machines in action.

That night, I packed my bags, had dinner, and boarded the school bus to the station. I said goodbye to Neha Didi, got on the train, and returned to Kechla.
