Report for 2024-25 (Second term)

INTRODUCTION

Rina is a very quiet and curious girl. She is always ready to learn and has good habits in her daily life. Rina does all her activities sincerely, and has friends whom she helps. Her best friends are Sushila, Bilanti, and Sabita. They are always together and support each other.

Rina loves eating different types of food, especially **poha** (flat rice with vegetables) and noodles. As she enjoys eating, she never wastes food and finishes everything on her plate. Her favourite vegetables are cabbage, cauliflower, and potato, as she believes these vegetables give her a lot of energy.

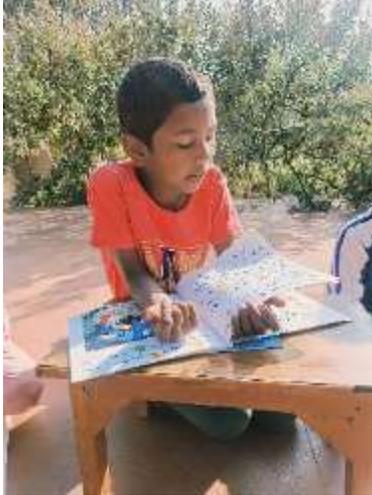

Every morning at 6:30 am, she participates in **Shramdan**, where she enjoys cleaning her hostel and school. She loves gardening the most. She takes care of the plants and helps with weeding.

ACADEMICS

English

Rina is a very smart and intelligent girl. She is very good at reading the English books and is very fond of the books. She reads very fluently and when difficult words come, she breaks them and she reads by herself. Her handwriting is very neat and clean. Now she has started the book- good grammar and can do it when it is explained. She learnt a little about the homophones and homonyms. She is good at the opposite words. For 21st February, she did a play on the life story

of the Mother and she had got the longest dialogues and she could memorize them. The words were a bit tough for her but she managed to learn them. She is very fond of doing the plays. For Christmas she had learnt a song, and she was quick in learning the lyrics of the song. She was able to catch the tune very beautifully.

Hindi

Rina remembers the concepts of the chapters. She finishes all her homework in the class and correctly does the question and answers. She has finished the Gyan Sarovar book-1. She has remembered all the stories. She can tell any story without seeing the book. She likes to listen to stories in the class. She focuses on her writing skill. She is working on her handwriting. She catches the new concepts very quickly.

Math

Rina is a very intelligent child who is keenly interested in maths. She sits quietly and does not speak much in class. She quickly answers every question asked by her teacher.

So far, she has learnt many number-related concepts, such as number breaking, before/after, expanded form, addition, and subtraction. She is currently solving questions from the class 2 textbook, which she is close to finishing. Rina enjoys answering textbook questions and is ahead of her friends. She frequently approaches her teacher to clear her doubts.

She has also learnt the multiplication of two-digit numbers with one-digit numbers. Rina can recite all the multiplication tables from 2 to 9 fluently, with only a few mistakes.

In the past few months, Rina has also learnt carryover, borrowing, and the concept of time. She can easily and

correctly solve carryover questions but makes silly mistakes in borrowing three-digit numbers. In the concept of time, Rina can show given times such as 12:35, 8:40, half past 12, half past 7, and 4:00. She enjoys making watches.

Rina's is happy to play whatever game she gets or chooses to play. She mostly plays mastermind and Othello. She likes to play ludo and tara with her friends or else she plays alone.

Project

Rina exhibits attentiveness and perseverance in her learning journey and takes great interest in learning and gets engaged in various activities done in the project class which helps her grasp new concepts.

Houses

In this topic Rina took a great interest to know about the various houses used and made in various places like in mountainous area, valleys, plains, etc. She tends to ask a lot of questions in the class. She too answers the questions asked to her. She enjoyed building the kuccha and pucca houses by using mud, straw and sticks with her classmates. She saw many videos of houses and drew pictures of them. She tried to make the pictures of the houses as beautifully as she can.

Animal

Rina chose this as her next topic to know more in detail about the animals around her. She got more information about the animals from the textbooks. She made the pictures of amphibians, domestic, wild and arboreal animals. She can identify the different categories of animals. Whenever any question is asked, most of the time she raises her hands to give the answer.

Rina has started doing question and answers from level 1 of 'Living Science' and she was the first one to finish the book doing reading and question and answers. She could independently read the chapters and do the questions and answers from the book and get it checked afterwards. She enjoyed solving the questions and answers from the book. She is continuing doing from the class 2 level of 'living science'.

CO-CORICULAR ACTIVITIES

Art and craft

Rina's enthusiasm for art is evident. Rina's creativity shines through her love for drawing and paper folding. She enjoys doing all the activities taught to her. Her consistent performance shows her dedication in art class.
