

ARCHITA KRISANI

DOB- 6th February-15

Annual Report for 2023-24 (second term)

Annual Attendance 350 days out of 366 days

Introduction:

Nine-year-old Archita maintains a tidy appearance and exhibits regular attendance at school, although she returns home after classes. Diligent in completing her homework prior to class, she demonstrates sincerity and helpfulness, engaging politely with both peers and teachers. Archita conducts herself appropriately in the classroom, displaying attentiveness and respect towards her teachers. During her leisure time, she finds enjoyment in writing activities.

English:

Archita is an obedient student who consistently completes her homework on time and actively engages in class discussions. She communicates fluently in English and comprehends English stories well. Archita reads

story books effortlessly and possesses a strong understanding of them. Over the past few months, she has learned to write both big and small alphabets neatly in her notebook, with her handwriting being

particularly neat and tidy. To enhance her handwriting, she diligently practices by copying stories from books. Additionally, she has a good grasp of all the sounds.

Hindi:

Archita exhibits strong academic prowess, completing her tasks meticulously with excellent handwriting. She actively participates in group activities and excels in reading with clarity. Archita is proficient in Hindi counting up to 36 and has a clear understanding of months and weeks in Hindi. Her portrayal of a tree and bushes in the play "Goats and Children" was commendable. Archita chose to draw an Allamanda flower for the Mother's birthday, showcasing her artistic skills.

Projects:

Archita demonstrates a strong academic performance and attentive nature in the classroom, with a high level of understanding and

completion of tasks. In the food topic, her creativity shines through in her drawings, illustrating her comprehension of concepts such as the distinction between animal and plant products. Her ability to articulate concepts verbally is commendable, with a proficiency level of approximately 80%. She grasps fundamental concepts such as the importance of food and different types of food with ease.

Transitioning to the occupation topic, Archita confidently discusses professions such as a hairdresser, showcasing her understanding of various occupations. She quickly grasps new concepts and demonstrates a rapid response time in answering questions, reflecting her strong comprehension and retention abilities.

In the transportation topic, Archita effectively learns about the significance of different modes of transport and displays proficiency in recognizing various vehicles through picture books. Her participation in learning about airways, railways, waterways, and roadways highlights her engagement with the subject matter.

Currently focusing on the solar system topic, Archita continues to demonstrate her academic prowess by acquiring knowledge about planets, the sun, the galaxy, and the phenomenon of day and night. Her consistent attention and understanding across different topics underscore her dedication to learning and her ability to grasp complex concepts.

Overall, Archita's progress reflects her diligence, comprehension, and active

participation in classroom activities. Continued support and encouragement will further enhance her academic growth and development.

Maths:

Archita is quite focused during mathematics class and has a keen interest in it. She is currently doing 2nd - grade Maths book. She is very focused during the class. She has a good understanding of word problems and can solve them independently. She knows the multiplication table till 12, and she can multiply four- and three-digit numbers. She can also multiply a two- digit number with a single digit number mentally.

Arts:

Archita finds joy in paper folding and collage-making activities, approaching each task with enthusiasm and care. She takes pride in her work, ensuring neatness and precision in her paper-folding endeavours. Her drawings often reflect themes related to nature and flowers, executed with patience and attention to detail.

Dance: Archita possesses strong dancing abilities and exhibits a deep love for the art form. With a knack for quickly

learning steps, she enjoys dancing to Hindi songs and is now embracing the Assamese dance with enthusiasm.

Puzzles: Archita is a good puzzle solver. She likes it because she thinks her thinking power increases when she does puzzles and can do up to 80-100 pieces of puzzles. She pays attention during the class. She is focussed while solving puzzles.

Singing and drama:

Archita possesses a strong singing ability, quickly grasping song lyrics, albeit facing challenges with certain pronunciation. She delights in reciting poems and singing, actively participating in song selection for assembly alongside her friend Anjali. In drama, she adeptly learns her lines and aids others in memorization.

However, Archita experiences stage fright, feeling nervous when delivering lines on stage, a hurdle she aims to overcome.

Games:

Archita favours dodgeball as her preferred game and actively participates in exercises. While she enjoys playing games, she exhibits shyness and reluctance when it comes to kicking the ball.

Sense development: Archita actively participates in various sensory activities with eagerness and interest. She demonstrates a

penchant for completing her tasks meticulously, contributing to the overall quality of her work. Archita enjoys both the creative aspect of activities like colouring and the interactive nature of games such as "Leader-Leader Change the Action" and mirror walking. Additionally, she willingly assists her peers, further enhancing the collaborative atmosphere of the class.
