Drishti Pukia

DOB- 28th March'16

Report for 2023-24 (First Term)

Attendance- 183 out of 183 days

Introduction

Drishti, aged seven, is another regular school-goer who has started staying in the hostel. She arrives neatly at school and has a strong bond with her best friend, Subechha. Puri is her preferred breakfast choice, though she occasionally drops food while eating. Drishti enjoys drawing, particularly focusing on drawing flowers.

Projects

Drishti is a conscientious and obedient girl who listens attentively to the teacher. She may occasionally get confused when asked questions in class, but she can provide correct answers with hints.

1. **Family:** During the family topic, Drishti learnt about family members, their names, who is the eldest, and the head of the family's occupation. She drew portraits of her family members, constructed a family tree, and enjoyed singing family-related songs.

2. **Shapes:** Drishti successfully learnt about different shapes and could name some of them, particularly after gaining exposure to the topic. She produced drawings of shapes and learnt various songs related to them. While 3D shapes initially presented challenges, she displayed a strong grasp of their properties and names.

3. **Body Parts:** Drishti has acquired a solid understanding of body parts, including their functions. She demonstrated her knowledge during sensory perception activities, effectively identifying items through taste and smell. Drishti found this topic particularly enjoyable. Additionally, she learnt about the sense organs and their functions, answering questions with confidence.

4. **Vegetables:** Drishti showcased her creative skills by making clay models, particularly a cabbage model. She actively engaged with other students by sharing information, riddles, and drawings about vegetables.

Health and Hygiene: Drishti contributed to creating health and hygiene charts and actively participated in related activities, including handwashing. She demonstrated an understanding of the importance of cleanliness and hygiene practices.

English

In the play "The Mice Wedding," Drishti was assigned the role of the narrator, which she delivered with confidence and without hesitation. Her ability to quickly remember dialogues is impressive. While she enjoys singing, her voice is quite soft. Drishti is attentive in class but tends to be reticent, rarely participating verbally.

Hindi

Drishti demonstrates an appreciation for stories shared by teachers and participates actively by responding to questions. She occasionally creates drawings and constructs

her stories, although she finds storytelling challenging. Drishti has successfully learned the names of shapes, vegetables, and colours. Her grasp of the Hindi alphabet is evolving, with proficiency in recognizing vowels (swar) and a growing understanding of some consonants. Pronouncing complex sounds like *ka, kha, ga,* and *gha* remains a challenge, but her determination drives her progress. Drishti has also memorized several poems and enjoys reciting them.

Maths

Drishti exhibits competence in both forward and backward counting. However, she faces challenges when identifying numbers that come 'before' and 'after,' often causing confusion. She is capable of breaking numbers down to ten and is adept at one-digit addition. Drishti can perform one-digit addition with two-digit numbers, utilizing both mental arithmetic and objects. On the other hand, she struggles with two-digit addition for two-digit numbers, often relying on objects for answers. Drishti could benefit from improving her listening skills, as she sometimes misses questions. She is in the introductory stages of understanding 'more' and 'less.' Despite these challenges, Drishti enjoys solving word problems, especially those involving addition.

Arts

Drishti demonstrates an appreciation for stories shared by teachers and participates actively by responding to questions. She occasionally creates drawings and constructs her stories, although she finds storytelling challenging. Drishti has successfully learned the names of shapes, vegetables, and colours. Her grasp of the Hindi alphabet is evolving, with proficiency in recognizing vowels (swar) and a growing understanding of some consonants. Pronouncing complex sounds like *ka, kha, ga,* and *gha* remains a challenge, but her determination drives her progress. Drishti has also memorized several poems and enjoys reciting them.

Puzzles

Drishti displays versatility in her puzzle-solving approach. She comfortably tackles puzzles both independently and with her friends. Her puzzle themes range

from Barbie to Avengers and Snow White. Drishti willingly assists her friends during puzzle class and excels at solving puzzles with 100 and 150 pieces.

Dance

Drishti is enthusiastic about dancing and dances well. She remembers dance steps and enjoys various dance styles. She performed "Vrindavan Mein Gopi Aaye" during Janmashtami and is not shy about dancing alone.

Games

Drishti remains focused during game sessions and participates quietly, displaying a joyful attitude.
