**DOB- 23-Jan-14**

## **Report for 2022-23 (first term)**

### *English*

Savitri speaks very little in the class. Her understanding of the language is improving. During the story time she sits quietly. In the singing, dancing and drama class, she likes to participate in every activity but faces some difficulty in catching up the dance steps. While being taught a song, she wants to learn the song and even sings them but faces problem in pronouncing the words properly as she has recently joined school.

### *Mathematics*

Savitri is a bright girl; she was very quick in learning counting. She joined late and on the first day of her school she learnt counting till ten properly. She was very fast in grasping most of the things and she managed to catch up with the other children in the group in just a few months. When she was new to

the group, she was quiet and non-cooperative but gradually she started speaking with other children in the group. It's very rare that she gets distracted while studying in the group, she is very conscious about herself. Whenever she learns something new in the group, she always tries to find out the patterns. She first started counting the numbers by using the objects. Once she was clear with the counting of numbers till twenty, she started counting the numbers after twenty. When she was very clear in forward counting till hundred, she learnt the backward counting and she was the first one to know the pattern. She did the counting very beautifully with very few mistakes. She is very good at adding and subtracting the one-digit numbers. She was very quick in learning the skip counting of two, three, four, five and six. Now she has started showing the numbers on the man card. She has learnt how to write the numbers till ten and is learning to write the two-digit numbers till twenty. She also played with jodo cubes, aakar parivar, and rangometry kit. She was very good at playing with these things. Using rangometry kit she made many designs and many patterns of 2D and 3D. She was very good in segregating rangometry according to their colours, shapes and size. She also did some patterns using these shapes and designs and she was very good at seeing the patterns and placing the shapes and colours in groups.

## *Projects*

### *Colours topic*

She is a fast learner. She fully concentrates in the class. She enjoyed decorating her display board. She knows all the names of the colours.
