

Anamika Pukia

2021-22

DOB- 13th November'13

Math:

Anamika is good at maths. She has a good mind but does not sit quietly in class and sometimes does not know what the question is. When she

listens and thinks, she gives the right answer. She has learnt ascending and descending order, expanded form, comparing numbers using signs ($>$, $<$ and $=$), carryover addition and subtraction from 2 digits to 1 digit in written form. She likes to create word sums of addition and subtraction.

Projects:

Anamika is very active during the class. She remembers things very fast. Sometimes she doesn't concentrate and is in her own world. In the vegetable's topic, Anamika drew the picture of cucumber. With her group she made chart paper of vegetables.

She also learnt a vegetable song and was very fast in learning the song. She created stories based on the vegetables. She and her friends thought of questions on vegetables that they wanted to learn. She participated in the presentation her group put up on vegetables. During presentation, she was confident while speaking. She has learnt about different types of vegetables, seasons and benefits of

vegetables. She enjoyed the topic and the activities thoroughly. She liked making the vegetable salad very much.

In the animals' topic she learnt about the parts of the body of animals, types of animals, how they live, their habit and habitat and how they teach their babies to prey. She also learnt names of different animals. She made a bear using clay and coloured it beautifully. She observed everything very minutely. She learnt the different names of the animals and made animal chart with her friends.

English: She has good language skills. Within a few months she has improved her spoken language. She started speaking in English in the class. She showed a lot of interest in listening to stories and doing dramas. She is able to remember her own dialogues easily, as well as dialogues of others. She has a good vocabulary. She loves to see the vocabulary books and keeps asking questions. She

learns songs with ease and sings beautifully. She draws good pictures and effortlessly creates good stories. The contents of her stories are long and usually about

friendship. She has clarity in at least twenty opposite words. Now we have started letter recognition and she can recognise both vowel and consonant sounds properly. On 29th November, on bhaiya's birthday, she participated in a drama "The elephant's crown".

Hindi:

She is an intelligent girl. She is eager to learn. She can narrate stories very well. She can create stories and tell it in the group. She speaks loudly and clearly in the class. When some new things are being taught, she concentrates very well. She learns very fast and tries to answer before the other children can speak. She has no control on her tongue. She can recognize the alphabets that she has learnt very easily. She can make sentences using a given word. She tries to help her friends.

Art and craft:

She participates in cutting and pasting but does not pay attention when any instructions are being given. Her fine motor skills are developed, and she can cut by herself without help. Her pasting is good. She is always wanting to learn new activities. Anamika is very good at

drawing, but she sings and talks while drawing. Her colouring is nice she colours inside the border and her finishing is also good. She uses bright colours and they are nice to look at.

Games: - She is a very active and cheerful child. She loves to climb on the hills while singing. Her body has flexibility, and she enjoys all basic yogasana, running, cartwheel. She is very good at cartwheel and frog jump.

Singing

Anamika loves singing and she learns the lyrics very fast. She concentrates during storytime but when she is not interested, she just fiddles and talks.
