Radhika Krisani

DOB- 18th May'10

Attendance- 180 out of 183 days

Report for 2023-24 (First Term)

INTRODUCTION

I am Radhika Krisani, residing in Leduguda village and belong to a family of five members. My mother is a homemaker, and my father is a farmer. I am the youngest in my family. My eldest sister is going to appear for her class 12 exams and is studying in my school as well. My older brother has completed class 10 from my school and has taken admission in another school in class 11. I am currently studying at AMVM School, where I particularly enjoy subjects like Social Science and Science.

HINDI

I have completed the syllabus of NIOS 10th book and am currently revising for the board exams. Nowadays, I focus on grammar, including different kinds of tenses. During class, I gain clarity on chapters from the course book that were initially challenging for me. I have also learnt new songs like "Hame Bharat Kehete Hai" and "Trayumbakam Yajamahe." I engage in

free reading, exploring jokes and novels to enhance my spelling and speaking skills in Hindi. Additionally, I enjoy Sanskrit class once a week, finding pleasure in speaking the language. I consistently perform well in tests, and I make a conscious effort to attend class cheerfully and remain attentive. I recognize the importance of focusing on speaking skills in a language, and overall, I love attending Hindi class.

ENGLISH

I have completed the syllabus and am now revising for the board exams. During English class, I participate in group reading, grammar exercises, and free reading. I also sometimes work on my own course book. My teacher corrects me when

I make mistakes in English, and I appreciate the guidance. I particularly enjoyed studying with Sandeep sir and engaging in group reading, exploring books like "A Thousand Splendid Suns" and "The Kite Runner." Currently, I am reading books I have chosen, including works by JK Rowling. While I find grammar challenging, especially in letter writing and active-passive construction, I enjoy my English class.

MATHS

In Mathematics, I have completed the 7th book of R S Agrawal and started the 8th book. I attend class regularly and have covered chapters on compound interest, profit loss, and cube roots, among others. I find the 8th book easier than the 7th, and although I understand the exercises, I work on improving my speed in calculations. Commercial maths was a bit challenging, but I managed to grasp it with practise. I am focused on enhancing my speed and accuracy in calculations. Despite these challenges, I express my love for maths and strive to do my best.

SOCIAL SCIENCE

In Social Science class, covering political science, history, and geography, I find history and geography most interesting. While I am confident in paying attention during course book lessons, I have completed the NIOS books and

the ICSE book of geography. I particularly enjoyed the book on geography as it expanded my knowledge. I have performed well in chapter-wise tests and am currently studying the 10th book of CBSE, focusing on topics like the Union Government. I love studying Social Science.

SCIENCE

In Science, covering biology, chemistry, and physics, I have a particular liking for biology. I attend class regularly and have finished the 10th book of NIOS, progressing to different books for the 8th and 9th grades. In Chemistry, I enjoy the subject despite finding some calculations challenging. I engage in various experiments, including creating a 3D periodic table. In Biology, I have created models of the human body. I concentrate in class, participate in experiments, and enjoy learning about living beings. Overall, I find Science intriguing and bring in good marks.

DANCE

I thoroughly enjoy dance class, where I explore various dance forms like semi-classical, modern, and classical. Classical dance, in particular, appeals to me due to its enjoyable music. I have learnt dances like "Aaigiri Nandini" and performed during Krishna Janmashtami. Although I sometimes feel nervous on stage, I find joy in learning new steps and building confidence. I enjoy the exercises in dance class.

COMPUTER

In computer class, I learn typing, PowerPoint, Excel, and more. I particularly enjoy creating videos in PowerPoint. While my typing speed is slow, I am determined to improve. I occasionally indulge in painting during computer class, finding great enjoyment.

ART

I engage in activities like painting and colouring, along with stencil cutting and origami. I concentrate during class, completing craftwork and decorating walls. I love participating in art class.

SPORTS

Engaging in various sports like football, basketball, and volleyball, I particularly enjoy playing basketball and football.

I focus on exercises and running before games, continually working on improving my running skills. In football, I take on the role of goalkeeper, preventing goals with success. I look forward to playing games every day.

SHRAMDAN

I actively participate in Shramdan, contributing to toilet cleaning, school cleaning, hostel cleaning, and kitchen duties. I particularly enjoy toilet cleaning and kitchen tasks, completing my Shramdan regularly and diligently.

YOGASANA

I attend yoga class from 6 to 6:45 am, engaging in various asanas and exercises. I concentrate on stretching during yoga class, finding the sessions beneficial.

TUESDAY ACTIVITIES

I enjoy participating in Tuesday activities, engaging in various activities for two hours each. I particularly enjoy craft and maths activities, creating swans and flowers during craft sessions and working on reasoning in maths.

MUSIC

In music class, I learn tabla and flute. While tabla can be challenging and cause hand pain, I find enjoyment in playing it. I appreciate learning different ragas on the flute.

In summary, I am an active and enthusiastic student who participates wholeheartedly in various academic, extracurricular, and physical activities. I strive to improve in areas where I face challenges and express a genuine love for learning across subjects.

CELEBRATIONS

I take great joy in celebrating festivals such as Independence Day, school's birthday, and Janmashtami. During Independence Day, I participated in a drama portraying the national movement. On Janmashtami, I performed a dance, receiving positive feedback.
