Rashmi Karangia

DOB- 24th March'17

Attendance- 170 out of 183 days

Report for 2023-24 (First Term)

Introduction

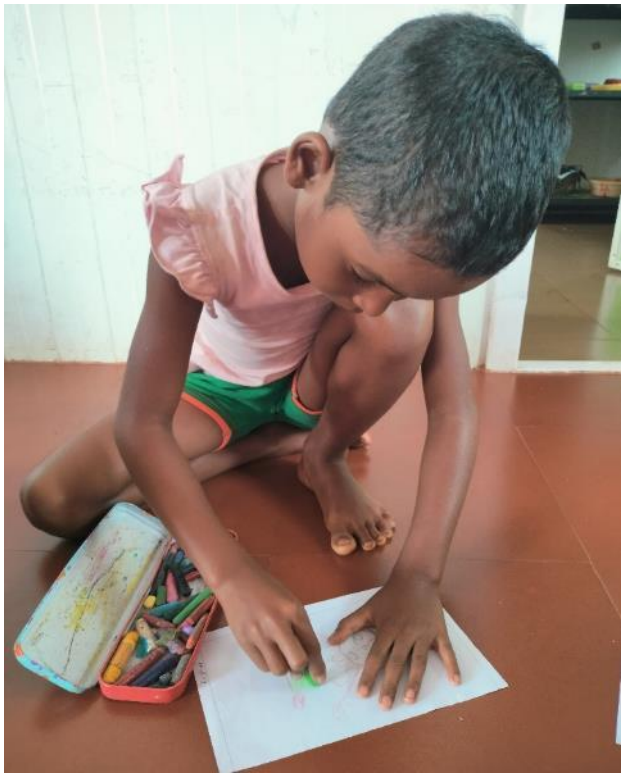
Rashmi is a regular student who generally comes to school neat and clean, but she occasionally takes holidays. She arrives at school on time and brushes her teeth there. Rashmi enjoys decorating flowers and has a good appetite for all the vegetables and food prepared at the hostel.

Circle Time

During circle time, she sits nicely and participates in chanting, but her voice is soft. She enjoys singing songs, particularly in groups, but finds it challenging to sing individually or to remember songs in such situations.

Languages

Hindi



In Hindi, Rashmi likes listening to stories from picture books and can understand the full story, as well as answer questions related to it. However, she struggles to retell stories and remember the story sequence. In the "Myself" topic, she has made a book about herself through drawing and painting but faces difficulties when presenting it. In the "Body Parts" topic, she has learned the names of body parts and how they help us, with drawings and paintings to accompany her knowledge. She also learned a creative song and presented it on the stage during the school's birthday. In the "My Family" topic, she created pictures of her family members and can provide four to five lines of information about them.

English

Rashmi enjoys listening to English stories with puppets and picture books. She can understand short stories and answer questions related to them. She has also learned some vocabulary from different picture books and enjoys singing rhymes. Through topics, she has learned to introduce herself in full sentences, the names of body parts from a chart, and the relationships within her family.

Mathematics

Rashmi is generally quiet in class but is good at hands-on activities involving materials like Rangometry and Judo blocks. She can count forward clearly up to 100 but requires help with counting backward. She faces challenges with transitional numbers like 80, 70, 60, and may sometimes confuse numbers like fifty and fifteen, thirty and thirteen, etc. She uses stick bundles to understand and differentiate between these numbers. She can represent numbers using bead strings, understand the concept of tens and ones, and recognize which numbers are big or small. Rashmi can show numbers (15, 17, 19, 50, and 70) using the stick bundles and speak in full sentences with the assistance of her peers. She relies on objects for breaking numbers down by tens, performing small additions with one-digit numbers, and can do skip counting by twos up to 20 without objects.

Skill work

She actively participates in all art class activities with full interest. She likes drawing village scenes and takes care to colour them nicely. Despite working at a slower pace, Rashmi produces beautiful and precise work.

Celebrations

Rashmi enjoys participating in drama, particularly in dressing up and makeup. She has a soft voice and takes time to remember songs. Notable performances include performing a drama about body parts on July 5th, dancing to "Sri Aurobindo Name Anando" on August 15th, making Rakhi with beads and thread and celebrating Raksha Bandhan on August 30th, performing a dance for Janmashtami to "Adharm Madhuram" on September 7th, and dancing to "O My Friend Ganesha" on September 19th for Ganesh Puja.

Games

Rashmi is an energetic girl who plays games with enthusiasm and agility. She excels in running and never gets tired. Her favourite games are "chain game," "ball in the bucket," and she quickly grasps the rules of new games.
