

Mahadev

Date of Birth- 22nd October 2003

April 2018 - March 2019

Mahadev

I appeared for my Class 10th Board exams in September-October 2018. My subjects were English, Hindi, Maths, Science and Social Science.

My results were declared in December and were as follows: -

English	73
Hindi	76
Math's	68
Science	60
Social Science	53

Mahadev

English:-

I have already given tenth board exam of English paper last year 2018 October and I waited for my result.

English course was not so difficult for me because the stories in English book were easy and I could remember all the stories from it and the question answers.

Before giving English paper I only concentrated on grammar and writing part because I needed to be more careful on grammar and spellings.

I did grammar part of the question paper of English with Sangita didi and did many question papers of English of previous years and gave to Sangita didi to check and sometimes I would give test on English paper of three hours without seeing the book.

Mahadev

Hindi:-

I did well in Hindi paper because before giving exam I practised some grammar from the book and also read many stories of Hindi and also read some report writing, paragraph writing, etc.

And we would give so many tests from Hindi course of NIOS and also we read many *Nibandh* on every topic in Hindi book and Also gave tests on *Nibandh*.

Mahadev

Social science:-

I studied all the chapters before giving exam. In social science some chapters of history were a little difficult for revising, so with my classmates we would go to the social science teacher to clear our doubts and understand some difficult chapters.

I did questions of social science previous year papers and gave for correction to Gauri Didi sometimes I would do it orally and also with my classmates .We would give each chapter test of social science in the absence of bhaiya. Sometimes the question papers were easy and sometimes difficult on different chapters. When the result came I got 54 percent because I had not prepared well.

Mahadev

Science:-

Science question paper was easy when I gave the exam and waited for the result.

Before that I read all the science chapters of chemistry, physics and biology.

We revised some chapters with Parthiv bhaiya of physics and did robotics with him for one week. We also studied with Srinath bhaiya.

I did many previous years question papers of science before giving exam.

Mahadev

Math:-

Before giving exam, I did math with Srinath bhaiya and also gave tests and we would give to Srinath bhaiya to check the previous year question papers of math.

Sometime the result were bad and sometime good. When srinath bhaiya would not be here then I would revise on my own. Exam paper was not so difficult and I attempted all the questions.

I am not very happy with my results and could have done much better. I am now preparing to take admission in Class 11 of Ramakrishna Mission School, Haat Muniguda. This is an English medium CBSE school for Tribal boys. I plan to take science.

Mahadev

Sports:-

Before giving exam I would go to play football and basketball.

In football my dribbling skills were very poor and I would only play as defender and after giving exam my dribbling skills are a bit improved and also scoring goals.

In basketball my dribbling skills were better and shooting baskets was very good.

I usually don't go to play basketball and instead play football.

Mahadev

In sports I like swimming because swimming makes me tired very fast and I would go from one side to other side and sometimes I would swim very far with my friends.

In sports I like to watch video of some of the best players like Kylian Mbappe, Ronaldo, Messi And Neymar.

Mahadev

Trip to Rajasthan:

After finishing our tenth exam in October 2018 last year, we went to Rajasthan trip for 2 weeks.

In Rajasthan we visited many places such as Jodhpur, Jaisalmer, Gulabpur, Jaipur, Chittaurgarh, Ranakpur, Ajmer, Pushkar, Falna, etc.

From all the places I liked the sand dunes because for the first time we had a ride on the camel and playing in the sand dunes and watching some programmes in these places like famous dance of Rajasthan and culture and also songs of Rajasthan.

Mahadev

In Rajasthan trip I got to know many places and religious beliefs and culture of Rajasthan.

Sometimes I felt bored of roaming in the sun and I would feel very lazy and not pay attention to the guide when he/she was speaking of the famous forts or palaces and temples.

I also liked the industry in Gulabpur and saw the functioning of making fibre in to fabric and also I liked the Jantar Mantar design in Jaipur.
