Mahendra Gouda

DOB- 20th May'15

Attendance- 173 out of 183 days

Report for 2023-24 (First Term)

Maths

Mahendra is a very sharp boy, and he always comes forward to answer in class. He does not hesitate to ask if he is not getting anything. He had no problem in addition, subtraction, multiplication, division, and units. He enjoyed doing the abacus. He is good in measurement and measured the length of the maths lab correctly. He enjoyed doing the abacus in

activity, and he has done very well in it. He has also done measurement in different units. Initially, he was having confusion in units conversion from metre to centimetre/millimetre to metre but was able to catch up after remembering the units' relation. He does all the homework on time but needs to increase his handwriting. He has finished his 3rd book and been given the 4th book.

Projects

Birds

Mahendra is a very curious and fidgety boy. He was enthusiastic about taking on the topic of birds to learn more about their role in our daily lives and the reasons behind their colourful plumage. Mahendra enjoyed early morning nature walks, observing birds as they prepared to find food for their young ones. Initially, he could recognize some birds by their calls, but after completing the chapter, he improved his ability to identify birds by their unique vocalizations. He learned to differentiate between different bird species based on their habitat and food habits. Mahendra demonstrated good progress and was one of the first to complete his writing tasks. During group discussions, he contributed knowledge about birds and asked questions to clarify his doubts. With the teacher's assistance, he created a book with his own bird drawings and colouring, and he also helped his peers with their bird diagrams and colouring.

Occupation

Mahendra was very interested to do this topic. He wants to become an astronaut when he grows up. He likes to become an astronaut because he wants to go to the moon and do research about the moon and other planets. He knows many things about occupation because he has seen many. He read a lot about the astronaut and the works of the astronaut and made a picture of an astronaut. He also did a role play of the astronaut and told many new things about it.

Hindi

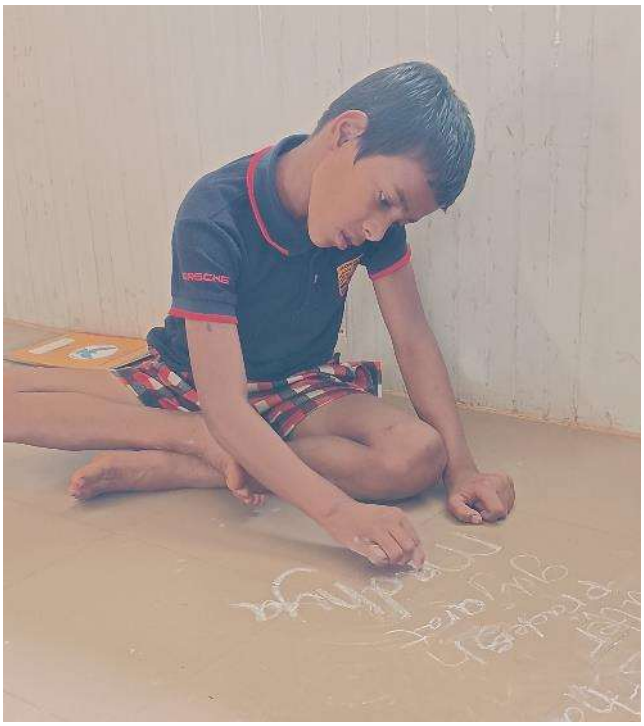
Mahendra is a diligent student, demonstrating the capability to fluently read short stories, albeit his comprehension skills require further development. He diligently attempts to enhance his understanding. Participating in group reading once a week, he finds it less engaging due to his reading pace, which surpasses that of his peers. Now proficient in recognising both alphabets and matras, he pronounces words with clarity. His script is well-formed, though when his interest wanes, it tends to sprawl. His vocabulary has expanded, allowing him to construct sentences independently and craft short stories. Occasionally, he engages in dictation exercises, displaying good spelling abilities. Furthermore, he has acquired the rudiments of grammar, such

as gender (ling), vand vichhed, and numbers (vachan). He keenly absorbs lessons during group instruction and demonstrates a penchant for grammar. He exhibits the ability to independently solve questions, a testament to his commitment to learning. Learning Havan mantras presented a challenge, but his determination enabled him to memorise them. Moreover, he has mastered numerous songs and poems; his retention is robust when he is interested but dwindles when his enthusiasm flags.

English

Mahendra appears to be an enthusiastic and intelligent student, especially in his English class. His love for English is evident in his active participation and his eagerness to learn.

One of Mahendra's notable strengths is his excellent memory. He quickly absorbs and retains information, which is a valuable skill in language learning. He actively engages in the class and is always alert, demonstrating his keen interest in the subject.



Mahendra's proficiency in English extends to his reading abilities. He can fluently read English storybooks and is capable of comprehending the content. Furthermore, he can effectively retell the stories after reading them, showcasing his understanding of the text.

His pronunciation skills are commendable, as he is better than many of his peers in this regard. Additionally, he is confident in using English as a medium of communication within the classroom, which is an important aspect of language learning.

Another area where Mahendra excels is in dictation. He consistently performs well in this activity, demonstrating his ability to spell words correctly. His enthusiasm for dictation is apparent, and he actively seeks opportunities to engage in this exercise.

Overall, Mahendra's passion for English, his strong memory, reading proficiency, pronunciation skills, and enthusiasm for dictation make him a dedicated and successful learner in the subject. His active involvement and fluency in English are assets that will likely contribute to his continued growth and success in the language.

Mahendra is a highly talented and fast learner. He is capable of memorizing songs, poems, and dialogue lines before most of his peers. He is attentive and enjoys singing English songs. While he is often assigned the longest dialogue lines in plays, he is sometimes overly confident. He is also interested in watching English movies and can understand their content.

Odia

Mahendra is an intelligent boy who comes on time, sits properly, and has made significant improvements in the language. He understands the language well and speaks in complete sentences with confidence and good pronunciation. He is a fast learner, loves singing songs, and knows names of animals, flowers, and body parts in Odia.

Arts and Crafts

Mahendra likes art because he likes to draw cartoons. His hand is free and his drawings are neat and clean. His interest in art is increasing day by day because his works are very nice, and he is very attentive in the class. He has not done shading much and he likes to colour the pictures made by him. He also likes paper folding because of the colours he sees.

Puzzles

In puzzle class, Mahendra engages with easier puzzles but occasionally struggles to maintain concentration, especially when distracted by others in the class. He prefers completing puzzles quickly and participating in matching games with friends.

Games and Sports

Mahendra has good stamina and his running speed is good. He enjoys all sports such as football, dodgeball, volleyball and base-kickball. While he plays ball related sports, he has good coordination with the team. He also passes and catches well.

Trip- For more details, refer to school report.
