

MAHENDRA MUDULI

Date of Birth: 7th March 2012

JOY

He is the Chhotabheem of our group. He is also the math genius of our group. He always says I am a strong boy. He is friendly with children of his own hamlet. He has learnt how to clean himself. Now he is trying to speak in English. He speaks fluently in Hindi. In circle time he sings songs with Didis and doesn't like to do actions of any song.

In math activities he participates actively and has learnt forward, backward and skip counting from 1 to 20. When we do mental math and four operations in creative story form, he answers very quickly. He can easily fix 36 pieces puzzles. He likes to set puzzles and blocks. Sometimes when he can't concentrate in language activities, he doesn't speak anything. At that time he stands like a statue.

His physical health is good. He energetically does physical work like gardening. He does physical exercises with enthusiasm. He likes to play in the sand pit. He likes to play super active games. His favorite game is chain game.

There is improvement in skill work. He has started doing artwork, paper folding, cutting & pasting and clay modeling beautifully. He can identify the five senses.
